What users are saying:

"Awesome! Makes my printer easier to use and I love the scan to email/Facebook/Google docs features." – 49er4ever

"Besides being able to put a doc on the scanner and scan the doc to my phone, I can now take this doc to [the] cloud and store it for safe keeping." – Sandiegoju2011

"I set this up on me and my daughter's iPhone 3GS and we are loving the convenience." – Debbie199us

¹ Requires a wireless access point and an internet connection to the printer. Services may require registration. Apps availability varies by country, language, and agreements. For details, see www.hp.com/go/mobile-printing-solutions ² Wireless performance is dependent upon physical environment and distance from access point. Both the printer and mobile device must be on the same wireless network. Wireless operations compatible with 2.4 GHz routers only. ³ Requires an Internet connection to the printer. Feature works with any connected Internet- and email-capable device. Print times may vary. Some HP LaserJets may require a firmware upgrade. For a list of supported documents, and image types, see www.hp.com/go/eprintcenter. And for additional solutions, see www.hp.com/go/mobile-printing-solutions.
