

## Executive Biography

# Stephen DeWitt

Senior Vice President, Enterprise Marketing  
Hewlett-Packard Company

---

Stephen DeWitt is senior vice president of Enterprise Marketing at HP. In this role, he is responsible for leading the company's enterprise marketing mix to drive demand and profitable growth for HP's enterprise businesses. DeWitt's focused team oversees a pan-enterprise portfolio that includes server, storage, networking, software and services worldwide.

Before taking this role, DeWitt served as the global senior vice president and general manager for the WebOS business unit and, prior to that, as the Americas senior vice president and general manager for the former Personal Systems Group. There, he was responsible for expanding global routes to market, digital commerce and customer and partner engagement. DeWitt also represents HP as an executive board member of the Silicon Valley Leadership Group.

Prior to HP, DeWitt served as president, chief executive officer and chairman of Azul Systems, where he provided the overall strategic leadership and visionary direction for the company from its earliest stages through product development, fund raising, market entry and expansion.

Before joining Azul Systems, DeWitt was vice president and general manager of Content Delivery and Edge Computing for Sun Microsystems, where he was responsible for Sun's server appliances, wireless, networking and emerging business areas. He joined Sun following the acquisition of Cobalt Networks, where he was president and chief executive officer.

Prior to joining Cobalt, DeWitt held several senior leadership positions with leading technology companies including Cisco Systems where he served as vice president and general manager of the Enterprise Network Management Business Unit and as well as vice president of Enterprise Marketing. DeWitt also served as vice president of Worldwide Marketing for Symantec Corporation.

DeWitt holds a bachelor's degree in Finance and Economics from Babson College in Wellesley, Mass. He has served on numerous technology company boards (public and private) and has worked extensively with the entrepreneurial community.
