

Over the last four months, HP has launched a new line up of next generation products and services designed for customers who want the best experience and the best value. With more affordable touch and new form factors, these offerings will enable a whole new set of experiences that work and play the way customers do.

Because some customers have told us they are interested in alternative operating systems, HP's next generation portfolio includes products based on Google's Chrome and Android platforms. And, to address the needs of next generation experiences based on content like photos and music that are accessed on more than one device, from more than one service, HP is also announcing updates to HP Connected Music and Photo.

Additionally, to help customers have great experience from set-up to day-to-day usage, HP offers friendly, reliable 24/7 phone support via HP SmartFriend.

Affordable touch

We are offering a number of new products that make touch much more affordable, based on customer feedback that Windows 8 is most enjoyable when they use it on a PC with touch.

- [HP Pavilion 14/15 TouchSmart Sleekbook](#)
 - This thin and light notebook series will turn heads wherever you take it. Pick a color that matches your personality, with a number of trend-setting options, including touch!
 - Get up to 1TB hard disk drive memory for storing files, music, photos, videos, and more of what you love.
 - We've got your entertainment needs covered. From our webcam app to powerful photo and video editing—it's an enhanced video experience.
 - HP Pavilion TouchSmart Sleekbook is currently available
 - Estimated US pricing starting at \$479.99

- [HP Pavilion 11 TouchSmart Notebook](#)
 - The affordable and compact HP Pavilion 11 TouchSmart Notebook is powered by the latest AMD A-series dual core processor.
 - This notebook can resume from sleep mode in seconds for fast access to email, social media, music and more thanks to the built in AMD Start Now Technology
 - HP Pavilion 11 TouchSmart Notebook is currently available
 - Estimated US pricing starting at \$399.99

- [HP Pavilion TouchSmart All in One](#)
 - Sleek, space-saving design with edge-to-edge glass display and 5-point multi-touch technology
 - Choice of 20" or 23" diagonal Multi-Touch, wide viewing angle (23" only) HD screen
 - The HP Pavilion TouchSmart All in One is currently available
 - Estimated US pricing starting at \$649.99

New form factors

As customers are expanding the set of experiences they want to enjoy on their PC, HP is innovating on the form factors to make those experiences better. With our portfolio of detachables, we are giving customers the productivity features they need and the entertainment features they want.

- [ENVY 17 Leap Motion Special Edition Notebook](#)

- The HP ENVY¹⁷ is the world's first notebook with integrated Leap Motion™ technology that senses natural movements for easy navigation and control and operates with merely the wave of a hand or a lift of the finger for a customized experience no other notebook can provide.
 - Thanks to Airspace™, the Leap Motion™ app store, experience apps in a new way using fast and accurate in-air hand movements
 - The HP ENVY¹⁷ Leap Special Edition is expected to be available on October 16, 2013
 - Estimated US pricing of \$1049.99
- HP Spectre¹³ x2
 - The Spectre¹³ x2, the thinnest and lightest detachable from HP, is the first fanless PC built on Intel's Haswell family of processors, providing a quiet computing experience.
 - Users will be impressed by the visually-arresting thin design combined with a 13.3-inch diagonal Radiance full HD display with ultra-wide viewing angles.
 - An HP TrueVision Full HD Webcam offers pixel-perfect transmission and 10-point trackpad provides an enhanced Windows8 experience.
 - The HP Spectre¹³ x2 is expected to be available on October 16, 2013
 - Estimated US pricing starting at \$1099.99
 - [HP Split x2](#)
 - The HP Split x2, powered by Microsoft Windows 8, features a 13.3-inch diagonal display, a powerful processor, and Beats Audio, making it ideal for work or play.
 - With one battery in the tablet and another battery in the keyboard dock you can go longer and do more.
 - The HP Split x2 is currently available
 - Estimated US pricing starting at \$879
 - HP Pavilion¹¹ x2
 - HP's most compact 2-in-1 detachable for ultimate portability
 - Detachable 11.6-inch diagonal HD touchscreen with IPS technology powered by the latest Intel BayTrail SOC
 - The HP Pavilion¹¹ x2 is expected to be available on November 17, 2013
 - Estimated US pricing starting at \$599.99
 - HP Pavilion¹³ x2
 - Benefit from the productivity and power of a notebook and the flexibility and fun of a tablet with the HP Pavilion¹³ x2.
 - Featuring a choice of an all new 2013 AMD quad-core A6 processor or a 4th generation Intel® Core™ processor and up to 500GB of additional storage, the Pavilion¹³ x2 offers powerful performance whether at home, work or on the go.
 - Enjoy entertainment content in vibrant color on the full-size HD touchscreen display with in-plane switching technology or use built-in WiDi on select models to easily connect to a WiDi-enabled TV or monitor to share images and videos.
 - The HP ENVY¹⁷ is expected to be available on November 17, 2013
 - Estimated US pricing starting at \$599.99
 - [HP Spectre¹³ Ultrabook](#)

- As HP's premium Spectre¹³ Ultrabook™, HP's thinnest notebook, offers the next level of performance and style with a sleek, elegant design made of sturdy aluminum alloy and next-generation colors, and boasts up to 9 hours of battery life.
- Supporting an expanded set of gestures custom designed for the modern user interface, the HP Control Zone™ trackpad provides an enhanced Windows 8 experience with the touch or swipe of a finger, unlocking superb visual precision and superior performance.
- Spectre¹³ has a 13.3-inch diagonal Radiance full HD display, and is also available with an arresting VIVID QHD display (2560 x 1440) with ultrawide viewing angles
- The HP Spectre¹³ is expected to be available on October 16, 2013
- Estimated US pricing starting at \$999.99

All-in-One PCs

HP is reinventing desktop computing with products that deliver a more natural, intuitive touch experience with new designs that provide flexibility in computing. With these products, customers have the ability to adjust, tilt and even tote their all-in-one PC to meet their needs.

- [HP Envy Rove²⁰](#)
 - The HP ENVY Rove 20 is a portable All-in-One PC with a versatile design and built-in battery, allowing users to enjoy shared family entertainment experiences
 - A unique hinged stand allows users to view the 20-inch diagonal IPS touchscreen at a variety of angles, or lay the device flat for a shared tabletop entertainment experience – all with the touch of a button
 - Combines 10-point capacitive touch with ergonomic angles to create an immersive entertainment experience
 - More than three hours of battery life and built-in wireless gives users the convenience of moving the PC from room to room
 - The HP Envy Rove²⁰ is currently available
 - Estimated US pricing starting at \$979.99
- [HP Envy Recline 23/27 TouchSmart PC](#)
 - The revolutionary design of the HP ENVY Recline²³ TouchSmart All-in-One PC brings comfort and ease to touch technology. A unique hinge allows users to position the touchscreen below the table or close to the lap for easy touch navigation, or upright and at different angles to use the keyboard or watch movies.
 - Features 10-point IPS Full HD (1920x1080) touchscreen monitor (23-inch only) that responds to multiple gestures at once, enabling users to get the most out of Windows 8 and Beats Audio™
 - The HP ENVY Recline is currently available
 - Estimated US pricing starting at \$1,099.99
- [HP ENVY Recline 23 Beats special edition](#)
 - The HP ENVY Recline²³ TouchSmart All-in-One PC Beats Edition features a premium Beats Audio™ experience fueled by studio-quality sound and quad speakers combined with a bold design for an immersive entertainment experience.
 - The HP ENVY Recline²³ TouchSmart All-in-One PC Beats Edition is currently available
 - Estimated US pricing starting at \$1,099.99

Operating Systems

In addition to form factor choices, we are giving people the power to choose the operating system that best suits their lifestyle.

- [HP Chromebook¹⁴](#)
 - HP Chromebook¹⁴ is the first Chromebook powered by an Intel® processor based on the Haswell microarchitecture, offering fast access to the web to tackle tasks while on the go, a large display and optional 4G for enhanced connectivity—in a range of eye-catching colors.
 - HP Chromebook¹⁴ joins the HP SlateBook x2, the HP Slate⁷ and HP Slate²¹ All-in-One as part of HP's approach to offer the Google experience as part of a multiple operating system strategy.
 - It is expected to be available on November 3, 2013
 - Estimated US pricing starting at \$299.99
- [HP SlateBook x2](#)
 - With a versatile 2-in-1 design, the flexibility and fun of a tablet meets the productivity and power of a notebook. Easily transition from tablet to notebook with a magnetic hinge design that makes docking and undocking work like magic.
 - Enjoy a faster and more immersive mobile computing experience and bring your games to life with the HP SlateBook x2, the first Android hybrid with a quad-core NVIDIA® Tegra®4 processor.
 - The HP SlateBook x2 is currently available
 - Estimated US pricing starting at \$749.99
- [HP Slate²¹](#)
 - The HP Slate²¹ All-in-One expands upon HP's portfolio of multi-OS products and is ideal for family activities, providing easy access to entertainment and productivity features, plus fun Android apps.
 - To further enhance productivity and entertainment, the HP Slate²¹ All-in-One offers a 21.5-inch full high-definition (HD)(2) diagonal reclining IPS touchscreen with wide viewing angles for vivid graphics and better shared viewing.
 - The HP Slate²¹ is currently available
 - Estimated US pricing of \$399.00

Cloud-based offerings

- [HP Connected Photo](#), powered by Snapfish by HP, offers seamless access to photos from a PC or mobile device or social media sites like Facebook in one locale, enabling customers to make the most of the holidays by printing photos, creating cards and invitations – directly from the application. Customers also can create artistic and mobile-friendly Deco Prints, or commemorate the season with new Premier Lay-flat Photo Books on Snapfish. Music lovers can unlock and enjoy their favorite music from a variety of music services around the house on a PC or tablet with [HP Connected Music](#) powered by Meridian. Beats Audio™, on select HP PCs and tablets, designed to provide the richest sound and an expansive playlist.
- [HP SmartFriend](#) gives customers friendly, reliable one-on-one phone support no matter what brand of PC or tablet they own. HP SmartFriend is available not only for HP products, but any computer running Windows, Chrome OS, OSX; and tablets running Android OS, Windows, and Apple iOS. Knowledgeable experts are available by phone 24/7 to remotely help solve issues and teach customers how to do new things with their technology. HP SmartFriend is available today in monthly subscription-based plans that meet different budgets.
