

## Executive Biography

### **Dave Larson**

Vice President, Advanced Technology Group, and Chief  
Technology Officer, Networking  
Hewlett-Packard Company

---

Dave Larson is vice president of HP's Advanced Technology Group (ATG) and chief technical officer for HP Networking. In this role, he is responsible for creating the long-term technology vision and strategy for HP Networking across multiple product divisions and geographies.

Larson is a network security professional and entrepreneur with more than 18 years of experience and a proven track record in demonstrating thought-leadership in the fields of data communication, data center infrastructure and network security. He brings a proven track record of successfully creating technology and market differentiation in both small-scale startup ventures as well as established public technology companies.

Prior to this role, Larson was chief technologist for security and routing and a senior member of the ATG within HP Networking. Larson joined HP via the acquisition of 3Com Corporation where he was most recently vice president of global product line management, security products and was responsible for driving product line strategies and integration initiatives between 3Com and their award-winning TippingPoint Intrusion Prevention Systems (IPS) product division.

Prior to 3Com, Dave held senior marketing and product/technology roles with a number of successful technology startups, including: Tizor Systems, Sandburst Corporation, and Xedia Corporation.

Larson holds a Bachelor of Science degree in Physics from Gordon College in Wenham, MA.
