

Executive Biography

Paul Haverfield

Principal Technologist, HP Storage, Enterprise Group
Hewlett-Packard Asia Pacific and Japan

Paul Haverfield is principal technologist for HP Storage in Asia Pacific and Japan (APJ). In this role, he is responsible for promoting and educating customers on storage technologies, trends and best practices.

Previously, Haverfield served for six years as principal customer satisfaction manager for HP Storage in APJ. His responsibilities included involvement in all facets of complex customer problem resolution. Haverfield joined HP in 1995 and has been employed in APJ roles since 2001.

With more than 25 years' experience in IT, Haverfield has held many industry roles in both IT vendor and end-user customer organizations. Haverfield has enjoyed a very broadly-based, balanced and hands-on technical IT career spanning system management, programming, professional services consulting, complex problem resolution and customer support.

Haverfield holds a Bachelor of Arts degree in computing studies from the University of Canberra.
