

Hugh Njemanze

Chief Technology Officer and Vice President,
Worldwide Research and Development
Enterprise Security Products
Hewlett-Packard Company

Hugh S. Njemanze is chief technology officer and vice president of Worldwide Research and Development for the HP Enterprise Security Products group. In this role, Njemanze serves as the chief technologist, responsible for overseeing product strategy, development and support.

Njemanze previously cofounded and served as chief technology officer and executive vice president of research and development for ArcSight, an HP company. Prior to ArcSight, Njemanze was chief technology officer of Verity Inc., a provider of knowledge retrieval software products.

Njemanze is a Certified Information Systems Security Professional (CISSP) and holds a bachelor's degree in computer science from Purdue University.
