

Executive Biography

Michael Garrett

Vice President and General Manager, Worldwide Professional Services,
Software
Hewlett-Packard Company

Michael Garrett is vice president and general manager of Worldwide Professional Services (PS) for HP Software. In this role, he leads the consulting and educational services business for HP Software hybrid and cloud solutions.

The PS organization provides world-class services and educational capabilities to maximize the HP Software portfolio for customers and partners. The PS organization works with customers to design, implement and manage solutions in the areas of cloud, hybrid delivery, information management and security. It also includes the Cloud Innovation Centre, which is responsible for the new HP Global Product Authentication Service.

Garrett has been with HP for 10 years in various leaderships roles in services at a country and regional level. He joined as part of the HP Services business following the HP/Compaq merger, leading sales for the finance industry. Most recently, Garrett was responsible for PS in EMEA, where he led the transformation of the organization, delivering significant revenue and growth. Under Garrett's leadership, PS EMEA was the highest-performing business unit in the region for HP and the region of the year for HP Professional Services.

Prior to joining HP, Garrett held sales, pre-sales and delivery positions at The Innovation Group, Oracle and Siemens. Garrett has accrued 20 years' experience in the IT industry and leverages this knowledge to gain strong alignment and execution across the HP business. Garrett earned a Bachelor of Science degree in computer science at Staffordshire University.
