

Executive Biography

Steven Wierenga

Chief Technologist, HP Atalla, Enterprise Security Products
Hewlett-Packard Company

Steven Wierenga is the chief technologist of HP Atalla, the company's payments and data security business. He also leads the HP Enterprise Secure Key Manager integration program. In this role, he coordinates across HP and partner enterprise server and storage data encryption solutions to ensure security best practices and interoperability with HP and open encryption key management standards.

Wierenga has worked in the HP Atalla business for the last 15 years in technologist and management roles encompassing security architecture, cross-business solution integration, technology licensing, standards development and patents. Previously he held architect, product development, management and executive roles within the HP NonStop Server division.

Wierenga holds a Bachelor of Science in Engineering from the California Institute of Technology as well as a Master's of Science in Electrical Engineering and Computer Science from Stanford University. He has 18 patents in high-availability systems and computer security.
