

## Subchapter 4.9—Terminals

HP designs and manufactures high-quality terminals specifically for HP e3000 systems. These terminals offer:

- anti-glare displays
- high character definition
- functional keyboard layouts
- display screen tilt and swivel
- enhanced keyboard with tactile feedback

All terminals have:

- 14-inch screen
- printer port
- selectable 80- or 132-column display modes
- detachable adjustable keyboard with 8 shiftable function keys
- green, white, or amber phosphor

700/96 and 700/60 have:

- full overscan
- larger, sharper characters
- serial and parallel printer ports

**Table 4.9.1 Terminals**

Product	Description	Memory	Additional Features
C1080A/G/W	700/60 ASCII/ANSI PC-Term	Wyse 60, DEC VT320	Wyse 60, DEC VT320, and PC-Term modes
C1083W	700/60ES ASCII/ANSI/PC-Term	Wyse 60, DEC VT320	Meets Swedish MPR 1990:10 guidelines
C1064A/G/W	700/96 Blockmode VPLUS	8 pages	High-quality display; EC 92 regulations (EN 55022B)

Note: VPLUS requires a 700/96 terminal. Oracle's SQL\*Forms, INGRES forms, and JAM will run on any 700 series terminal. JAM also runs on a blockmode terminal, giving the user optimal performance.
