HP recently unveiled two new series of LaserJet printers designed to help small and midsize businesses (SMBs) create professional quality documents such as brochures, newsletters, reports and spreadsheets -- now printing professional quality business collateral is even easier than before! **The HP LaserJet Pro 400 color M451** and the **HP LaserJet Pro 300/400 color MFP series** were officially announced at Macworld|iWorld 2012, and are now available for purchase and currently shipping in the United States.

In addition to providing professional quality prints, the new HP LaserJet series printers support HP's wide range of mobile printing solutions such as **HP ePrint** and **HP Wireless Direct**. With HP ePrint and HP Wireless Direct, users can easily print from virtually anywhere their business might take them.<sup>(1)</sup> These printers also support **AirPrint™** for easy, direct printing straight from the iPad®, iPhone® or iPod touch®.<sup>(2)</sup>

For the serious business professional, the HP LaserJetPro 300/400 color MFP series also support HP's Print Apps including the latest Shoeboxed.com, HP Forms and Google Docs™ apps. Users can print content directly from the Web through the touchscreen display without the need of a Mac or PC.<sup>(3)</sup>

Additional information about these products and all of HP's Mac and Apple-compatible products can be found by visiting [www.hp.com/go/mac](http://www.hp.com/go/mac).

#### Footnotes

(1) Requires an internet connection to the printer. Feature works with any connected internet- and email-capable device. Requires HP Web Services Account Registration. Print times may vary. Some HP LaserJet printers may require a firmware upgrade. A list of supported documents and image types is available at [www.hp.com/go/eprintcenter](http://www.hp.com/go/eprintcenter). Additional solutions are available at [www.hp.com/go/mobile-printing-solutions](http://www.hp.com/go/mobile-printing-solutions)

(2) Supports iOS 4.2 devices (iPad, iPhone 4, iPhone 3GS, and third- and fourth-generation iPod touch) and later that support multitasking. Works with HP ePrint-enabled printers and all-in-ones. AirPrint and iOS 4.2 devices require

an 802.11 wireless network connection to the printer. Wireless performance is dependent upon physical environment and distance from the access point.

(3) Requires a wireless access point and an internet connection to the printer. Services may require registration. Availability varies by country, language and agreements, and requires a firmware upgrade. Details are available at <http://www.hp.com/go/eprintcenter>.

AirPrint and the AirPrint Logo, iPad, iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.
