

## HP Retail Monitors

Everything you could ever want from a retail monitor in a range of elegant, reliable, and durable designs.

The monitor is the focal point of a retail solution, and HP has a range of retail-hardened monitors tailored to fit your specific environment. Each has a compact, flexible design for easy placement on the counter or mounted to a wall, swing arm or custom solution.<sup>1</sup>

### HP L1506x 15-inch LED Monitor

Reliable, purpose built, and using an industrial panel, this non-touch display offers increased brightness and a high contrast ratio for retail environments. The included accessory rail supports quick and easy mounting of HP accessories.<sup>1</sup>

### HP L6010 10.4-inch Retail Monitor<sup>2</sup>

This stylish and compact non-touch display is designed for increased performance and outstanding durability. The small size and VESA mount capability make it a great secondary customer-facing display for sharing engaging video and graphics or as an operator display in small retail spaces. The optional stand offers height and tilt adjustment for additional flexibility.

### HP L6015tm 15-inch/HP L6017tm 17-inch Retail Touch Monitors<sup>2</sup>

These elegant 15-inch and 17-inch diagonal monitors use Projected Capacitive touch technology for an intuitive, familiar multi-touch experience similar to that of smartphones and tablets. The flush-glass design provides a modern look and is easy to clean. The monitors have four mounting ports, for internal integration of optional<sup>3</sup> peripherals such as a Magnetic Stripe Reader, Biometric Fingerprint Reader, and Webcam to enhance functionality and maximize counter space.

### HP L5006tm 15-inch Retail Touch Monitor<sup>4</sup>

This monitor uses Surface Acoustic Wave (SAW) technology for fast, accurate input through a finger, gloved hand or stylus.

### HP L5009tm 15-inch Retail Touch Monitor

Acoustic Pulse Recognition (APR) technology on this monitor identifies screen taps by recognizing the sounds created when the glass is touched at a given position. This means you can use a pen, credit card, finger or fingernail to interact with the screen.

Each monitor is backed by a three-year limited warranty.<sup>5</sup> For more information about HP Retail Monitors, please visit [www.hp.com/go/pos](http://www.hp.com/go/pos).
