1. This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details. 2. A standard GSM/GPRS/EDGE/UMTS/HSPA infrastructure, Wi-Fi network access, other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless service provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Normal GSM Data Calls (CSD) are not basic GSM data services. These services may not be available via all service providers, and may require separate subscription. Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Not all features and service options are available in all areas. 3. GPS Navigation software is included in select countries. Purchase of additional maps and/or software may be required to enable some features or allow navigation in certain areas. Availability of maps is limited. Map coverage may vary and is not guaranteed. 4. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements. 5. Certain Windows Vista product features require advanced or additional hardware. See <http://www.microsoft.com/windowsvista/getready/hardwarereqs.mspx> and <http://www.microsoft.com/windowsvista/getready/capable.mspx> for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit <http://www.windowsvista.com/upgradeadvisor>. 6. Windows Vista Business disk may be included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order at least 25 customer systems with the same custom image. 7. Wireless broadband and Gobi technology use requires separately purchased service contract. Check with service provider for availability and coverage in your area. 8. Thinnest standard-voltage notebook when measured at its thickest point. 9. GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas. Requires separately purchased GPS navigation software available from multiple GPS applications. 10. Up to 1 GB may not be available with 32-bit operating systems due to system resource requirements.
