

March 2006

Dear Customer:

We are pleased to be shipping you the OpenVMS V8.2-1 I64 Quarterly Distribution Q1CY2006 for Integrity Servers. This update is shipping to a subscription service which you are currently signed up for. This service includes all media and documentation shipped with each major Operating System release as well as quarterly updates of layered products and Operating Environment component products, based upon your support contract. OpenVMS V8.2 I64 and all future Source Listings will also be provided as part of this subscription, though it may be provided in a different physical shipment.

If you have any questions regarding this shipment or other software update issues, please contact your software support specialist.

Best Regards,

HP
