

September 2010

Subject: End of Support Life for "Apache version 2.0 along with WSS version 2.x" on 11iv2 and 11iv3.

Dear Customer:

In order to assist you with your future systems planning, HP would like to share with you our support plans for Apache along with WSS for HP-UX 11i v2 and 11i v3 Operating Environments.

The Apache 2.0 along with WSS2.x will no longer be supported after March 31, 2011. Customers using this version should plan to migrate to following prior to this date:

(1) WSS version 3.x or Later containing Apache 2.2 or later.

The WSS3.x with Apache 2.2 is latest version available from Apache.org (An open source) containing new features. This version had been first released by HP in March 2009 timeframe and is a stable version.

Please refer release note for more information on WSS3.X version.

Beginning Sep 2010 Release, WSS 2.X version will no longer be shipped on OE Media. Instead, the latest version WSS 3.X is being shipped in OE media and WSS 2.X will still be available in AR Media for transitional purpose. The support for WSS 2.X would end by March 31, 2011.

Sincerely,

Hewlett-Packard Company
