

## Important Notice to Hewlett-Packard customers

Hewlett-Packard is pleased to announce a significant shift to electronic delivery for all contractual software updates by the June 2011 timeframe.\* Contractual software update notifications will only be available electronically. As a result of this shift to electronic software downloads, shipments of software media kits will no longer be widely available.

**ATTENTION:** If you need physical delivery for existing entitlements, please request your media for those releases that you have received a "reply card" or "request form" Immediately.

You will receive additional communication on these changes soon. HP values your business and looks forward to improving your software download experience.

*\* Operating Environment / Operating System Products - HP-UX, OpenVMS, True64 will continue to be available in both physical and electronic delivery form.*
