Data sheet

HP EliteBook 840 Notebook PC

Ultra-productive in and out of the office, thanks to security, performance, and management features.

Now employees can hit the road with a travel pro. The HP EliteBook 840 G1 industry-leading Ultrabook is ultra-productive in and out of the office. Work with confidence, thanks to proven enterprise technologies and enterprise security, performance, and management features that will meet all your business needs.

HP recommends Windows.

Sleek and sturdy
- It’s time for an upgrade to the dramatically thin, light design of the HP EliteBook 840 G1 Ultrabooks with a luxurious soft-touch finish.
- Join forces with the latest generation Intel® architecture, operate at peak performance levels with Intel Smart Response Technology for disk cache, and expand total storage options with an additional mini-card SSD.
- Dock up for an enterprise desktop experience using the optional UltraSlim Docking Station with a convenient side connector and dual DisplayPorts for multiple display support.

It’s all about the connections
- Exercise full control over your wireless connections through a single user interface with support for most networks, including optional new 4G WWAN using HP Connection Manager.
- Easily share your internet connection with up to five devices with HP Wireless Hotspot. Help colleagues get online and improve productivity.
- Take productivity to a whole new level with innovative software like HP ePrint and HP PageLift on the HP EliteBook 840 G1.
- Bridge distances on the HP EliteBook 800 series, optimized for communication with Microsoft Lync, premium audio/video, and optional full-HD display.

Solid security
- HP Sure Start restores productivity and reduces IT help desk calls in the event of a BIOS attack or corruption. Exclusively from HP, HP Sure Start helps reduce downtime for users and IT.
- Keep sensitive information in safe hands. HP Trust Circles helps protect your data by ensuring that only assigned contacts can access critical files.
- Stay up and running. HP BIOS Protection offers enhanced protection against virus attacks to the BIOS and other security threats, and is designed to help prevent data loss and reduce downtime.
- Safeguard data, devices, and identities with HP’s hassle-free Client Security portfolio, including HP Drive Encryption, HP Device Access Manager with Just In Time Authentication, and HP Secure Erase.
- Ensure smooth sailing with stable and consistent images, managed lifecycle transitions, and Global Series support you can rely on.

<tr>
<td>Warranty</td>
<td>Limited 3-year and 1-year warranty options available, depending on country; 3-year limited warranty on HP Long Life Battery (only available with 3-year platform warranty). Optional&lt;sup&gt;10&lt;/sup&gt; HP Care Pack Services&lt;sup&gt;13&lt;/sup&gt; are extended service contracts which go beyond your standard warranties. For more details visit: hp.com/go/cpc</td>
</tr>
</tbody>
</table>
1. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows 8 functionality. See microsoft.com for details.

2. This system is preinstalled with Windows 7 Pro software and also comes with a license and media for Windows 8 Pro software. You may only use one version of the Windows software at a time. Switching between the two versions requires uninstalling the older version before installing the newer version. You may also be required to reinstall all associated drivers and software. For full details visit: absolute.com/company/legal/agreements/computrace-agreement

3. Absolute’s Data Protect agent is shipped turned off, and must be activated by customers. Service may be limited; check with Absolute for availability outside the U.S. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. For full details visit: absolute.com/company/legal/agreements/computrace-agreement

4. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not be available due to system resource requirements.

5. For hard drives and solid state drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of system and up to 36 GB (for Windows 8) disk is reserved for system recovery software.

6. Absolute Data Protect agent is shipped turned off, and must be activated by customers. Service may be limited; check with Absolute for availability outside the U.S. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. For full details visit: absolute.com/company/legal/agreements/computrace-agreement

7. Some functionality of this technology, such as Intel Active management technology and Intel Virtualization technology, requires additional third-party software in order to run. Availability of "virtual appliances" applications for Intel vPro technology is dependent on third-party software providers. Microsoft Windows required.

8. HD content required to view HD images.

9. Wireless access point and internet service is required and is not included. Availability of public wireless access points limited.

10. Sold separately or as an optional feature.

11. The wireless hotspot application requires an active internet connection and separately purchased data plan. While HP Wireless Hotspot is active, on-device applications will continue to work and will use the same data plan as the wireless hotspot. Wireless hotspot data usage may incur additional charges. Check with your service provider for plan details. Requires Windows 8.

12. Requires an internet connection to HP web-enabled printer and HP ePrint account registration (for a list of eligible printers, supported documents and image types, and other ePrint details, see hpconnected.com). Mobile devices require internet connection and email capability. May require wireless access point. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary. Some HP LaserJet printers may require firmware upgrades.

13. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/cp/care.

14. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel architecture will require you to use a 64-bit versions of OS, operating system, device drivers, and applications enabled for Intel 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel’s numbering is not a measurement of higher performance.

15. WWAN is an optional feature sold separately or as an add-on feature. WWAN connection requires wireless data service contract and network support, and is not available in all markets. Contact service provider to determine the coverage area and availability. Connection speeds will vary due to location, environment, network conditions, and other factors.

16. Requires Internet Explorer, IE8 or IE9. Some websites and applications may not be supported.

17. For the use cases outlined in the DOD 5220.22-M Supplement. Does not support Solid State Drives (SSDs). Internal setup required. Web-based download only in Internet Explorer and Firefox browsers and must be user enabled.

18. Requires Windows. Data is protected prior to Drive Encryption login. Turning the PC off or into hibernate logs out of Drive Encryption and prevents access. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel’s numbering is not a measurement of higher performance.

19. WWAN is an optional feature sold separately or as an add-on feature. WWAN connection requires wireless data service contract and network support, and is not available in all markets. Contact service provider to determine the coverage area and availability. Connection speeds will vary due to location, environment, network conditions, and other factors.

20. HP Trust Circles Standard, when included, allows up to 5 Trust Circles with up to 5 contacts in each Trust Circle. Optional Trust Circles Professional required for unrestricted number of Trust Circles.

21. Not all configurations will be classified as Ultrabooks.

22. Requires a compatible Intel Core processor, enabled chipset, Intel Rapid Storage technology software, and non-SED HDD+ optional msATA SSD flash cache module. Intel Smart Response Technology is only available on select 2013 HP systems. Depending on system configuration, results may vary. msATA SSD is planned to be available in August 2013.

23. Support for external displays as a standard feature through integrated processor-based graphics is dependent upon the particular PC platform/form factor; the actual number of displays supported will vary. An optimized ultra-thin graphics solution will be required for the support of additional displays. Additional cables required. DisplayPort with multi-stream through integrated graphics is planned to be available in fall 2013 and is available in all editions of Windows 7. See microsoft.com for details.

24. HP Professional Manager available on Windows 7 only.

27. HP Sure Start is available only on HP EliteBook 800 and HP Workstation ZBook series products.

28. HP Sure Start is available only on HP EliteBook 800 and HP Workstation ZBook series products.

29. HP Client Security requires Windows.

30. 4G LTE not available on all products, in all regions, and only available on products featuring Intel processors.

31. MIL-STD testing is pending and is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions.

32. Additional access point and internet access required. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices.
