

Snapshots Display

1. Remove backing and glass from frame.
2. Measure twine and cut into pieces to the width of the frame, allowing an extra 3-4" for tying.
3. Use a small hammer to insert nails 5.5"-6" apart along the right and left border of the frame.
4. Tie twine around each nail, creating horizontal lines across the frame opening.
5. Use the HP Social Media Snapshots app to print out your favorite photos on HP Social Media Snapshots Photo Paper.
6. Display your photos on the frame with clothespins.
