Portable Powerhouse.

Create masterful designs and jaw-dropping animations with workstation-caliber graphics by either AMD or NVIDIA. The HP EliteBook 8570w is ISV-certified so your mobile workstation runs smoothly and reliably no matter what the project is.

Keep up with large files and daunting projects with the incredible performance and responsiveness of an Intel® Core™ i7 quad-core processor or an i7 or i5 dual-core processor. Gain improved performance and speed with up to four SODIMMS supporting up to 32 GB of memory. Multi-task on multiple screens at once or view enlarged content across up to five additional displays. Color remains consistent and accurate. HP DreamColor Technology and HP Mobile Display Assistant allow you to control color attributes throughout your development environments.

Creativity with business acumen.

Save time by quickly accessing your favorite files with Intel Smart Response Technology. You'll also gain fast response times for things like system boot and application startup. Engage in video conferences, web-based trainings or streaming videos with smooth audio quality that'll surprise you. SRS Premium Sound PRO also allows you to share crisp, powerful sound directly from your notebook. Forget the extra speakers during your presentations.

Access the Internet and email in more places than ever, thanks to various wireless technologies that keep you connected—from Wi-Fi CERTIFIED™ WLAN to HP Mobile Broadband featuring 3G and 4G LTE and optional Bluetooth connectivity.

Business on the run.

Work efficiently in dimly lit rooms or on red eye flights. The full-size, backlit keyboard doesn't sacrifice comfort.

When design projects require travel, you'll confidently take the portable HP EliteBook 8570w with you. This mobile workstation meets tough military standards (MIL-STD-810G) for drop, vibration, dust, temperature and altitude.
## EliteBook 8570w Mobile Workstation

**HP recommends Windows® 7.**

- Genuine® Windows 7 Professional 3212  
- Genuine® Windows 7 Professional 6412  
- Genuine® Windows 7 Home Premium 3212 (select countries)  
- Genuine® Windows 7 Home Premium 6412 (select countries)  
Supported:  
- Genuine® Windows 7 Enterprise 3212  
- Genuine® Windows 7 Enterprise 6412  
- Genuine® Windows 7 Ultimate 3212  
- Genuine® Windows 7 Ultimate 6412  
- SUSE Linux Enterprise Desktop  
- Red Hat Enterprise Linux (RHEL)  
Certified:  
- SUSE Linux Enterprise Desktop  
- Red Hat Enterprise Linux (RHEL)  
- FreeBSD |
| **Processor**           | 3rd Generation Intel® Core™ i7 Quad-Core™ with Turbo Boost Technology14, 3rd Generation Intel® Core™ i7 and i5 Dual-Core™ with Turbo Boost Technology14 |
| **Chipset**             | Mobile Intel® QM77 Express Chipset (vPro™ support)13 |
| **Memory**              | DDR3 SDRAM PC3-12800, 1600 MHz, dual-core processors support 2 memory slots, 2/4/8 GB16 SODIMMs, up to 16 GB total, quad-core processors support 4 memory slots, 2/4/8 GB16 SODIMMs, up to 32 GB total16 |
| **Internal Storage17** | 320/500/750 GB 7200 rpm HDD, 500 GB 7200 rpm SED (Self Encrypting Drive), SATA 6 Gb/s, 128/180 GB SSD, SATA 6 Gb/s, 256 GB SED SSD |
| **Flash Cache**         | Intel® 24 GB SLC mSATA cache module; Support Intel Smart Response Technology (available with non-SED HDD only) |
| **Upgrade Bay**         | 12.7 mm SATA optical drive or secondary hard drive: DVD-ROM Drive, DVD+/RW Drive, Blu-ray ROM DVD+/RW Drive, Blu-ray R/RE DVD+/RW Drive, 500 GB 7200 rpm HDD, 256 GB SATA 6 Gb/s SED SSD, or weight saver |
| **Display**             | 15.6” diagonal LED-backlit WVA anti-glare, HD+19 (1600 x 900); 15.6” diagonal LED-backlit WVA anti-glare, FHD19 (1920 x 1080); 15.6” diagonal LED-backlit UWVA anti-glare, FHD+19 (1600 x 900); 15.6” diagonal LED-backlit UWVA anti-glare, FHD19 (1920 x 1080) |
| **Graphics**            | AMD FirePro™ M4000, with 1 GB dedicated GDDR5 video memory (AMD Eyefinity Technology for advanced multi-monitor support), NVIDIA Quadro K1000M, with 2 GB dedicated GDDR3 video memory, NVIDIA Quadro K2000M, with 2 GB dedicated GDDR3 video memory |
| **Audio/Visual**        | High Definition Audio (SRS Premier Sound PRO), stereo speakers, stereo headphone/line out, stereo microphone in, integrated dual-microphone array, optional 720p HD18 Webcam2 |
| **Wireless Support23,31**| Optional HP hs2350 HSPA+ Mobile Broadband; Optional HP un2430 EV-DO/HSPA Mobile Broadband; Broadcom 802.11a/b/g/n 2x2; Intel® Centrino Advanced-N 6205 802.11a/b/g/n 2x2; Intel® Centrino Ultimate-N 6300 802.11a/b/g/n 3x3 |
| **Ports and Connectors**| 2 USB 3.0 ports, 2 USB 2.0 ports (1 charging), 1 USB/SD/USB 2.0 combo port, 1 VGA, 1 DisplayPort, 1 stereo microphone in, 1 stereo headphone/line out, 1 1394a, 1 RJ-11 (optional modem), 1 RJ-45/Ethernet, 1 docking connector, 1 secondary battery connector, power connector |
| **Expansion Slots**     | 1 ExpressCard/SD slot, 1 SD/MMC slot supports SD (Secure Digital), SDHC (Secure Digital High Capacity), SDXC (Secure Digital Extended Capacity), MMC (MultiMedia Card), MMC+ |
| **Input Devices**       | Full-sized spill-resistant keyboard with numeric keypad, bottom case drain, backlight keyboard, touchpad with scroll zone and gestures support, point stick, discrete launch buttons (Web browser, WLAN on/off, mute, calculator) |
| **Software (Windows OS only)** | HP Power Assistant; HP Recovery Manager, HP Support Assistant, Microsoft® Office Starter: reduced-functionality Word and Excel® only, with advertising. No PowerPoint® or Outlook®. Buy Office 2010 to use the full-featured software. Roxio MyDVDE 10 SE (select models), HP Performance Advisor. Custom Integration Services provides tailor-made, turnkey solutions for Business Ready PCs |
| **Dimensions (w x d x h)** | Standard panel: 15.0 x 10.1 x 1.36 in (at front)/38.2 x 25.8 x 3.5 cm (at front); DreamColor panel: 15.0 x 10.1 x 1.44 in (at front)/38.2 x 25.8 x 3.7 cm (at front) |
| **Weight**              | Starting at 6.69 lb (3.0 kg) with weight saver (weight will vary by configuration) |
| **Power28**             | B-cell (83 Wh) Lithium-ion battery, B-cell (75 Wh) HP Long Life Battery, optional HP ST09 Extended Life Notebook Battery (73 Whr), optional HP BB09 Ultra Extended Life Notebook Battery (100 Whr), 240W HP Smart AC Adapter, 150W HP Smart AC Adapter, 200W HP Smart AC Adapter, 200W HP Fast Charge29 |
| **Expansion Solutions2**| HP 230W Docking Station, HP 90W Docking Station, HP 230W Advanced Docking Station, HP 120W Advanced Docking Station, HP Dual Hinge Notebook Stand, HP Display & Notebook Stand, HP Adjustable Display Stand |
| **Warranty**           | Limited 3-year and 1-year warranty options available, depending on country; 1-year limited warranty on primary battery. Optional HP Care Pack Services29 are extended service warranties which go beyond your standard warranties. For more details, visit hp.com/go/lookuptool. |
1. Genuine Windows® 7 Professional
2. Optional 720p HD Webcam
3. 15.6" diagonal display
4. Full-size keyboard with numeric keypad
5. Touchpad with scroll zone
1. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

2. Sold separately or as an optional feature.

3. Four SODIMMs for a total of 32 GB of memory is available only on quad-core systems. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

4. Support for 5 monitors requires separately purchased HP Advance Docking Station.

5. HP offers discrete graphics configurations supporting up to five total displays through the advanced docking station. The advanced docking station is sold separately. AMD graphics supports five total displays, including the native notebook display. NVIDIA graphics supports up to four total displays, including the native notebook display.

6. Requires a compatible Intel® Core processor, enabled chipset, Intel® Rapid Storage technology software and non-SED SSD + optional mSATA SSD flash cache module. Intel® Smart Response Technology is only available on select 2012 HP systems. Depending on system configuration, results may vary.

7. Video conferencing is available on configurations with the optional 720p HD webcam.

8. Internet access required.

9. Wireless access point and Internet service required. Availability of public wireless access points limited.

10. Wireless use requires separately purchased service contract. Check with your local vendor for coverage area and availability in your area. Connection and speeds will vary due to location, environment, network conditions, and other factors. 4G compatibility with HSPA+ and LTE. 4G LTE is only available in the United States. LTE is expected to be available in June 2012.

11. Testing was not intended to demonstrate fitness for DOD contracts requirements or for military use. Test results are not a guarantee of future performance under these test conditions.

12. This system may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are available in all editions of Windows 7. See microsoft.com/windows/windows-7 for details.

13. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See intel.com/info/emb4t for more information. Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance.

14. Intel® Turbo Boost 2.0 technology requires a PC with a processor with Intel Turbo Boost 2.0 capability. Intel Turbo Boost 2.0 performance varies depending on hardware, software and overall system configuration. See intel.com/technology/turboboost for more information.

15. Some functionality of this technology, such as Intel® Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Microsoft Windows required.

16. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

17. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 15 GB (for Windows 7) of system disk is reserved for the system recovery software.

18. Blu-ray contains new technologies, certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require an HDMI digital connection and your display may require HDCP support. HD DVD disks cannot be played on this drive. Note that DVD-ROM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media. Actual speeds may vary. Don’t copy copyright-protected materials. Double Layer discs can store more data than single layer discs; discs burned with this drive may not be compatible with many existing single-layer DVD drives and players.

19. HD content required to view HD images.

20. Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is on in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at epa.gov/egrindl. Regional results will vary. Microsoft Windows required. Requires discrete graphics configuration.

22. Do not copy copyright-protected materials.

23. Microsoft Windows required.

24. For the use cases outlined in the DOD 5220.22-M Supplement. Does not support Solid State Drives (SSDs). Initial setup required. Web history deleted only in Internet Explorer and Firefox browsers and must be user enabled.

25. Microsoft Windows and webcam required.

26. In order to deploy policies the client needs to be connected to the network. Requires connectivity to the DigitalPersona server to receive updated policies. System access may not prevent users from logging into the system on the first attempt if policy updates haven’t yet been received and applied. This functionality blocks network access from the user’s PC.

27. The Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging multiple years. Service is limited, check with Absolute for availability outside the U.S.

28. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and use. See MobileMark07 battery benchmark bapco.com/products/mobilemark07 for additional details.

29. Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to the HP Ultra-Capacity or 9-cell batteries. When the PC is powered on, charge time may increase and will vary based on the workload of the notebook PC.

30. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/go/lookuptool.
