MARKETING & SUBSCRIPTION COMMUNICATIONS

HP marketing communications provide information about products, services, and/or support and you can select how these communications are delivered – e.g., via postal mail, email, telephone, fax or mobile device. Marketing communications may include new product or services information, special offers, personalized content, targeted advertising or invitations to participate in market research or compliance reviews. Subscription communications include email newsletters, software updates, etc. that may be expressly requested by you or which you consented to receive.

- To unsubscribe from messages delivered to mobile phones, reply to the message with the words "STOP" or "END."

You can also disable automatic data collection tools, such as web beacons, in email messages by not downloading images contained in messages you receive (this feature varies depending on the email software used on your personal computer). However, doing this may not always disable data collections in the email message due to specific email software capabilities. For more information about this, please

refer to the information provided by your email software or service provider.

COOKIES AND CHOICES

HP provides you with choices about the setting of cookies and other automatic data collection tools through our Cookie Preferences Center. In addition, you have the right to withdraw any consent previously granted or to request correction, amendment, restriction, anonymization or deletion of your personal data; and to obtain the personal data you provide with your consent or in connection with a contract in a structured, machine readable format and to ask us to transfer this data to another data controller.

You also have the right to object to the processing of your personal data in some circumstances, in particular when we are using your data for direct marketing or to create a marketing profile. Please see [the HP Communications Section](#) for guidance on how to exercise your rights with regard to marketing and subscription communications.

In addition to the privacy controls available to you via this Privacy Statement, you can control your device data collection. In some instances, product usage data (not content of files) is collected and processed in order to deliver you the essential functionality of an HP Service, such as remote printing, Instant Ink or other web-enabled service. You can control device data collection yourself through your device settings and preferences. HP is not in a position to adjust your data collection settings without your active participation. Certain product usage data is necessary to provide HP Services and disabling data collection may affect the availability or functionality of such services. Data collected for the fulfilment of such essential functionality will not be processed for direct marketing purposes. If you need assistance in adjusting your data collection settings, please contact HP Customer Support

In certain cases, these rights may be limited, for example if fulfilling your request would reveal personal data about another person or if you ask us to delete information which we are required by law to keep or have compelling legitimate interests to keep.

We will not discriminate against you for exercising your rights and choices, although some of the functionality and features available on HP Services may change or no longer be available to you. Any difference in the Services are related to the value provided.
