1. Introduction

HP recognizes the importance of privacy as a basic human right. We have developed a data protection program to ensure respect for privacy throughout all aspects of our operations. We comply with privacy and data protection laws around the world and apply the highest possible global standards to ensure consistent protection for our customers in jurisdictions with minimal or no data protection laws.

HP's commitment to privacy and data protection was recognized in 2011 when HP's Binding Corporate Rules for Data Controller were approved by European Economic Area ("EEA") regulators and recognized by the Swiss regulator, permitting HP to transfer the Personal Data of HP Employees and consumers outside of the EEA. In 2018, EEA regulators again recognized HP's commitment to privacy and data protection by approving a set of Binding Corporate Rules for Data Processor that apply when HP is processing data on behalf of a Controller (referred to as "HP Customer").

HP EU Binding Corporate Rules for Data Controller ("HP EU BCR for Controller") and HP EU Binding Corporate Rules Data Processor ("HP EU BCR for Processor") respectively (referred to as "HP EU BCR" throughout the document), set the minimum standards for protection and transfer of Personal Data by the HP Entities that are bound by the HP EU BCR (referred to as "HP EU BCR Entities").

The Data Protection Authority competent for the supervision of the HP EU BCR is the Commission Nationale de l'Informatique et des Libertés ("CNIL").

Data Subjects have the right to lodge a complaint with the CNIL if they believe that the HP EU BCR have been breached.

This Public Version sets out the key elements from the HP EU BCR. It aims to provide Data Subjects with easy access to the relevant information. More specifically, this includes information on the Data Subject's third-party beneficiary rights under the HP EU BCR and how they can exercise and enforce those rights. Moreover, it clarifies that HP accepts liability for compensating and remedying breaches of the HP EU BCR and outlines the data protection principles that HP EU BCR Entities apply to protect Personal Data. Further details about the third-party beneficiary rights can be requested from Requests for access through our ["HP Chief Privacy and Data Protection Officer" form](#).

The list of countries where the HP Entities bound by the HP EU BCR are located can be found in Appendix 1 (also available [here](#)), or provided upon request.

Please see the Glossary in Appendix 3 for definitions of capitalized terms. References to “process or processing” mean to include any operation or set of operations which is performed upon Personal Data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment, combination, restriction, erasure or destruction.

2. Summary of the EU HP BCR

The HP EU BCR consist of HP’s corporate policies, privacy standards and specifications, commitments to training and assurance, and Data Subject enforcement rights. HP EU BCR applies in the following situations:

- **HP as Data Controller** - HP EU BCR for Controller apply when HP processes Personal Data from consumers, vendors, business partners, business contacts, current and former HP Employees, and job applicants as a Data Controller.
- **HP as a Data Processor** - HP EU BCR for Processor apply when HP processes Personal Data on behalf of a Data Controller. This could include the Personal Data of the Data Controller’s employees or customers.

The EU HP BCR are made binding through two Intercompany Agreements on the Processing and Transfer of Personal Data (“Intercompany Agreement(s)”). An updated list of all HP BCR Entities that have executed the Intercompany Agreements and are consequently bound by the EU HP BCR can be found [here](#), or provided upon request. To request a copy, please submit a request through our [“HP Chief Privacy and Data Protection Officer” form](#) by selecting the option “Privacy/data protection question”, and then selecting “International Data Transfers”.

Furthermore, all HP Employees are bound by the HP EU BCR through HP’s internal “Integrity at HP” program and HP policies, standards, and specifications applicable to the collection and processing of Personal Data.

Contingent workers must follow HP’s privacy and data protection policies, standards, and specifications, as well as any external compliance codes of conduct or standards (including but not limited to HP’s Global Master Privacy Policy, HP’s Binding Corporate Rules, or any other Privacy compliance framework). This is required when conducting HP business and in using online and offline systems, processes, products, and services that involve the use, storage, or transmission of any personal data from HP customers, business partners, HP Employees, and

other individuals. Corrective action will be decided in line with the HP Supplier Code of Conduct by the respective employers of contingent workers.

Where local law requires a higher standard of data protection than HP EU BCR, local law takes precedence over the HP EU BCR.

If the Data Subject is an HP Employee, the Data Subject shall visit the Trust and Privacy Organization's intranet site for additional details regarding HP's processing of HP Employee data in accordance with data protection law.

HP confers the following rights to data subjects in relation to the EU BCR:

- Data protection principles, lawfulness of processing, security and personal data breach notifications, restrictions on onward transfers (Section 3 of this Public Version)
- Transparency and easy access to the EU BCR (Section 3 of this Public Version)
- Rights of information, access, rectification, erasure, restriction, notification regarding rectification or erasure or restriction, objection to processing, right not to be subject to decisions based solely on automated processing, including profiling (Section 4.5 of this Public Version)
- Obligations in case of local laws and practices affecting compliance with the EU BCR and in case of government access requests (Section 8 of this Public Version)
- Right to complain through HP's internal complaint process (Section 5.1 of this Public Version)
- Cooperation duties with Competent SAs (Section 4.4 of this Public Version)
- Jurisdiction and liability provisions (Section 5 of this Public Version)
- Duty to inform the data subjects about any update of the BCR-C and of the list of BCR members e.g. by way of publishing the new version without undue delay (Section 9 of this Public Version)
- Third-party beneficiary clause (Section 5.3 of this Public Version)
- Right to judicial remedies, redress and compensation (Section 5.3 of this Public Version)

3. Scope of the HP EU BCR

HP EU BCR are based on HP's accountability-based privacy and data protection program which focuses on the fundamental principles set forth in this section. Where HP's obligations differ depending on its role as a Data Controller versus a Data Processor, such distinctions are noted.

3.1 Lawfulness & Fairness

HP only processes Personal Data fairly and in accordance with law. HP carefully takes into account the reasonable expectations of a Data Subject whenever it processes their Personal Data.

Data Controller

As a Data Controller, HP primarily processes Personal Data based on the following legal bases:

- **Consent** - Data Subjects have unambiguously given consent.
- **Contract Performance** - Processing is necessary for the performance of a contract to which a Data Subject is a party to or in order to take steps at the request of the Data Subject prior to entering into a contract.
- **Required by Law** - Processing is necessary for compliance with a legal obligation.
- **Legitimate Interests** - Processing is necessary for the purposes of the legitimate interests pursued by HP, except where such interests are overridden by the fundamental rights and freedoms of the Data Subject.

Moreover, HP recognizes that additional care is required to justify the processing of any Special Category Data and, therefore, HP is prohibited from processing Special Category Data unless one of the following applies:

- **Consent** - Data Subjects have given explicit consent to the processing of Special Category Data.
- **Legal Obligations** - Processing is necessary for the purposes of carrying out HP obligations and rights in the field of employment and social security and social protection law in so far as it is authorized by national law providing for adequate safeguards.
- **Vital Interests** - Processing is necessary to protect the vital interests of the Data Subject or of another person.
- **Publicly Available** - Processing relates to Special Category Data which are manifestly made public by the Data Subject.
- **Legal Claims** - The processing of Special Category Data is necessary for the establishment, exercise or defense of legal claims.
- **Public Interest** - The processing is necessary for reasons of substantial public interest based on local law.

HP only processes Personal Data relating to criminal convictions and offences, or related security measures, if it is permitted or required by laws and regulations providing for adequate safeguards as required by law.

Data Processor

When HP processes data on behalf of a HP Customer, it is the responsibility of the HP Customer to ensure that any such processing is based on the appropriate legal grounds. HP will only process Personal Data in accordance with the instructions provided by the HP Customer.

3.2 Transparency & Notice

Data Controller

HP operates transparently and provides clear notice to Data Subjects about the identity of the Data Controller, purposes of processing, categories of Personal Data collected, recipients of the Personal Data and other information as required by law. HP also provides Data Subjects with choices about what information can be collected and how that information can be used.

Data Processor

HP shall provide reasonable help and assistance to the HP Customer to comply with the principles of transparency, fairness and lawfulness.

3.3 Purpose Limitation

HP abides by the principle of purpose limitation and only uses Personal Data for the purposes described at the time of collection or strictly in accordance with instructions from the Data Controller.

Data Controller

When acting as a Data Controller, HP only uses Personal Data for the purposes described at the time of collection or for additional compatible purposes in accordance with law. Personal Data shall be adequate, relevant and limited to what is necessary in relation to the purposes for which it is collected. HP has implemented "Privacy by Design" which requires that all HP systems, services, applications and products be designed and implemented with privacy in mind. As part of the Privacy by Design process, HP carefully reviews the purposes for which Personal Data is to be collected to ensure that our data collection supports reasonable business requirements and is proportionate to our needs. HP will not use Personal Data for purposes that are incompatible with the notices provided to or the choices made by Data Subjects.

Data Processor

HP processes Personal Data on behalf of the HP Customer only for the purposes of delivering our services and in compliance with:

- the terms of the relevant agreement between HP and the HP Customer, including, those relating to the security, confidentiality and any processing instructions of the HP Customer;
- any other documented processing instructions between the HP Customer and HP;
- all applicable HP privacy policies;
- EU HP BCR; and
- all local data protection and privacy laws applicable to HP.

3.4 Data Quality and Storage Limitation

HP respects the principle of data quality and takes steps to ensure that the Personal Data it processes is up-to-date and accurate.

Data Controller

When acting as a Data Controller, HP takes reasonable steps to ensure that Personal Data is accurate, complete and current. HP also only keeps Personal Data in a form which permits the identification of Data Subjects for only as long as is necessary for the purposes for which it is collected. Personal Data that it is no longer necessary or that HP is no longer legally required to maintain is securely deleted or destroyed.

Data Processor

When processing Personal Data on behalf of a HP Customer, HP will take steps to update, correct or delete Personal Data in accordance with the HP's Customer's direction. HP retains Personal Data only to the extent that provision of service is necessary to the HP Customer, unless otherwise instructed by the HP Customer or required by law. Upon instruction from the HP's Customer, HP complies by either deleting, destroying or facilitating the return of the Personal Data to the HP Customer depending on the nature of the instruction, unless required to retain the Personal Data for compliance with applicable law.

3.5 Data Security & Data Breach Notification

HP is committed to the highest standards of protection of Personal Data. Accordingly, HP implements a robust set of information security controls including policies, practices, procedures, and organizational structures to protect the confidentiality, integrity and availability of Personal Data. HP's security controls are intended to protect against physical, organizational, and logical threats and include measures to address the following:

- Security Policy
- Information Security Organization
- Asset Management
- Access Control
- Personnel Training
- Third Parties and Subcontractors
- Systems Security
- Physical and Environmental Security
- Operations Management
- Cryptography
- Information Security Incident Management
- Business Continuity Management

To learn more about HP's Security Measures, click [here](#).

Data Controller

When acting as a Data Controller, HP implements appropriate technical and organizational measures to protect against unauthorized or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to Personal Data. This level of security is proportional to the harm which might result from any unauthorized or unlawful processing, accidental loss, destruction, damage or theft of Personal Data and having regard to the nature of the Personal Data which is to be protected. In addition, HP takes into account the state of the art and the costs of implementation of such technical and organizational measures. HP also extends its security requirements to third-party service providers that process Personal Data on behalf of HP.

In the event of an actual or suspected personal data breach involving Personal Data, HP follows the appropriate incident management and breach notification processes. These processes include requirements for HP to:

- Keep records of all Personal Data incidents;

- Notify Data Subjects of personal data breaches affecting Personal Data where the breach is likely to result in a high risk to the Data Subject; and
- Notify incidents affecting Personal Data to the Competent Supervisory Authority where required.

Data Processor

When carrying out Data Processor activities, HP implements security measures that appropriately comply with its legal obligations. HP determines such appropriate measures by taking into account the nature of the Personal Data, the processing activities undertaken on behalf of the HP Customer as well as the potential harm that a Data Subject might suffer. Furthermore, HP will implement any additional security measures required by the HP Customer and set forth in the service agreement governing HP's services. To the extent that any HP security measures exceed the legal minimums, or the requirements set by the HP Customer, HP always implements the more protective measures. If HP becomes aware of any actual or suspected security incident involving the Personal Data, HP will notify the HP Customer in accordance with the agreement between the HP Customer and HP without undue delay. HP will also cooperate with the HP Customer to remedy the security incident and provide information necessary for the HP Customer to satisfy its breach notification obligations.

HP shall assist the HP Customer in meeting its obligations under data protection law with respect to security, privacy by design and privacy by default, security incidents and data protection impact assessments.

3.6 Automated Decision Making

HP shall not make any decisions about a Data Subject based solely on the automated Processing of their Personal Data which produces legal effects or similarly significant effects unless that decision is either:

- i. Taken in the course of entering into or the performance of a contract;
- ii. Authorized by a law which also lays down measures to safeguard the Data Subject's legitimate interests; or
- iii. Is based on the Data Subject's explicit consent.

Where the decision is based on (i) or (iii), HP will implement suitable measures to safeguard the Data Subject's rights, freedoms and legitimate interest. HP will also inform the Data Subject about the automated processing and any logic involved as well as disclose any significant

consequences for the Data Subject and their right to obtain human intervention and to challenge the decision.

3.7 Appointing Data Processors and Onward Transfers

In all cases, HP will only engage a Data Processor (whether another HP BCR Entity or a third party, including sub-processors) to process Personal Data if it is permitted to do so by applicable HP policy and the Data Processor is able to provide sufficient guarantees of compliance with applicable privacy and data protection laws.

Data Controller

Where a HP BCR Entity is acting as a Data Controller, before transferring the data to any other HP BCR Entities for processing, the HP BCR Entity acting as a Data Processor must agree to comply with the obligations set forth in the applicable Intercompany Agreement. The obligations contained in the Intercompany Agreement serve as the binding written agreement that satisfies Article 28 of the EU General Data Protection Regulation. In other words, within the HP group of entities, Personal Data can only be transferred between HP BCR Entities that are parties to the applicable Intercompany Agreement.

When transferring Personal Data outside of the HP group to a third-party Data Controller, HP will ensure that the Personal Data is adequately protected by complying with applicable privacy and data protection laws.

With regard to transfers to third-party Data Processors, HP only transfers Personal Data to third-party Data Processors located in Adequate Countries (or that meet conditions of adequacy issued by the European Commission), or in accordance with the following legal mechanism:

- EU Binding Corporate Rules
- EU Standard Contractual Clauses

In all cases of onward transfer to third parties, HP shall ensure that it enters into a written agreement with the third party which contains provisions no less protective than those set out in HP EU BCR (including the requirements of Article 28 of the GDPR where the third party is a Data Processor).

Data Processor

When acting as a Data Processor, an HP BCR Entity will not transfer to or permit another HP BCR Entity to act as a sub-processor or to have access to or process Personal Data unless: 1) that

company is a signatory to the appropriate Intercompany Agreement; and 2) HP has provided the proper notification and obtained the prior written consent of HP Customer.

Similarly, when HP transfers Personal Data to a third-party sub-processor, it shall only do so if it has provided the appropriate notice and obtained the necessary authorizations from its HP Customers. In addition, HP will only transfer data to third-party sub-processors in accordance with the legal mechanisms set forth above and with a written agreement in place that contains terms no less protective than those set out in HP's contract with its customer and shall contain adequate protection for the transfer of any Personal Data to a non-Adequate Third Country, in accordance with data protection law.

HP shall provide notice to the HP Customer of any replacements to such sub-processors (with a right to object). HP is responsible for the acts and omissions of any HP or third-party sub-processors and remains fully liable for the acts and omissions of the sub-processors and remains fully liable for any breach of HP EU BCR that may arise from such acts and omissions.

3.8 Accountability

HP has adopted policies and implemented appropriate procedures that put data protection principles and safeguards into effect and promote good practices, which, taken as a whole, allow HP to demonstrate that the processing of Personal Data is compliant with applicable law. HP EU BCR reflects the accountability principle.

Where a HP EU BCR Entity is acting as a Data Processor, the HP Entity will make available to the HP Customer all information necessary to demonstrate compliance with its obligations as provided by Article 28(3) of the GDPR.

4. HP's Commitments

Central to the HP EU BCR are HP's commitments to maintain a robust corporate framework for privacy and data protection. These commitments include:

4.1 Governance

The HP's Trust and Privacy Organization is led by the Chief Privacy Officer, who reports to HP's Legal Organization. The Data Protection Officer regularly reports to HP's Board of Directors through the Audit Committee. The Trust and Privacy Organization is chartered to ensure compliance with applicable privacy and data protection laws and is responsible for overseeing

compliance with HP EU BCR. Each HP EU BCR Entity agrees to comply with any decision issued by the Trust and Privacy Organization or HP's Legal Organization as to any action to be taken.

Data Subjects and HP Customers can contact the Data Protection Officer by using our [“HP Chief Privacy and Data Protection Officer” form](#) or by postal mail at:

HP Printing and Computing Solutions, S.L.U.

Attn.: WW DPO – Legal Department

Cami de Can Graells 1-21 (Bldg BCN03)

Sant Cugat del Valles

Spain, 08174

4.2 Training

HP Employee training is critical for ensuring the protection of Personal Data. In addition to the general privacy training required for all HP Employees, HP has implemented role-based training programs that cover, among other things: risks to data; security measures to prevent dangerous events; data protection principles according to the law and HP policies; and HP Employee responsibilities. HP also has specialized trainings to address the compliance obligations under its HP EU BCR.

The HP's Trust and Privacy Organization develops and refreshes trainings on an ongoing basis using a variety of resources and materials. Depending on business needs, risk assessment outcomes, assurance processes and other factors, the HP's Trust and Privacy Organization may develop additional role-based and/or mandatory trainings.

4.3 Compliance Assurance

The HP's Trust and Privacy Organization is responsible for the implementation of HP's Privacy Assurance program. This program is designed to assess internal compliance with HP's internal privacy policies, standards, specifications, and HP EU BCR. Through this program, HP identifies potential compliance gaps and tracks and mitigates risks. The program covers all business units and functions that collect, use, access, or store Personal Data. The results of any internal assessment shall be communicated to the appropriate stakeholders.

The HP EU BCR is subject to an annual audit during which the HP's Trust and Privacy Organization will ensure that Personal Data is being protected and HP BCR Entities are acting in compliance with their obligations under the HP EU BCR.

HP also monitors compliance through third-party certifications, dispute-resolution mechanisms and robust monitoring of Data Subject complaints and feedback.

All competent Supervisory Authorities may ask HP to provide copies of the full audit reports. When receiving such requests, the Trust and Privacy Organization will prepare such copies and will make them available to the requestor.

4.4 Cooperation

HP shall cooperate with any Data Subjects, HP Customers and Competent Supervisory Authorities to verify HP's compliance with its HP EU BCR, answer any questions or respond to any complaints relating to the processing of Personal Data in accordance with its HP EU BCR.

4.5 Honouring Data Subject Rights

Data Controller

HP will honour Data Subject rights under applicable data protection laws and will seek to accommodate the rights in a clear and transparent manner without undue delay, unless applicable law permits or requires HP to deny the rights. This includes the Data Subject's:

- **Right to Access** – Data Subjects have the right to ask HP for a copy of any personal data that they have provided to HP or that HP maintains about them.
- **Right to Be Informed** – Data Subjects have the right to request an explanation about the processing, which will detail the categories of personal data, the categories of sources from which the personal data is collected, the purposes for collecting or sharing personal data, the categories of third parties to whom HP discloses personal data, and the specific pieces of personal data HP has collected about them.
- **Right to Portability** – Data Subjects have the right to obtain the personal data they provide with their consent or in connection with a contract in a structured, machine-readable format and ask HP to transfer it to another data controller.
- **Right to Rectification** – Data Subjects have the right to request from HP to update, amend, correct, or rectify their personal data.
- **Right to Erasure** – Under certain circumstances, Data Subjects have the right to request deletion or destruction of their personal data (for example, the personal data is no longer needed in relation to the purposes for which they were originally collected).
- **Right to Restriction of Processing** – Under certain limited circumstances when legally provided, Data Subjects have the right to restrict the processing of their personal data.

This means that the data will not be actively used for the original purpose, but will be maintained to exercise HP's legitimate rights.

- **Right to Withdrawal of Consent** - Data Subjects have the right to withdraw their consent at any time. The withdrawal of consent does not affect the lawfulness of processing based on consent before its withdrawal.
- **Right to Object** - Data Subjects have the right to object to the processing of their personal data in some circumstances, including when HP is using their personal data for direct marketing or to create a marketing profile. Data Subjects can see the HP Communications Section of the HP Global Privacy Statement for guidance on how to exercise their rights and to manage their preferences for marketing and subscription communications. In some cases, they may also have the right to object, at any time, to processing personal data under the grounds of legitimate interests.
- **Right to Object Automated Decision-Making and Profiling** - In case the Data Subject is: a) subject to a decision based solely on automated processing, including profiling, b) which produces legal effects concerning them or significantly affects them and, c) the processing is based either on explicit consent or the performance of a contract; the Data Subject will have the right to obtain human intervention to express their point of view and to contest the decision.
- **Right to lodge a Complaint with the Competent Supervisory Authority** - Data Subjects can contact the EEA Data Protection Authority in the country where they live or work, or in the EEA country of any alleged infringement. A full list of EEA Data Protection Authorities is available, [here](#), and the Swiss data protection authority is available [here](#).
- **Right to lodge a Complaint before the Competent Court** - Data Subjects can lodge a complaint before the EEA Competent Courts, with a choice for the Data Subject to act before the courts where HP has an establishment or where the Data Subject has their habitual residence.

These rights may be limited in some situations under applicable law. The means to exercise these rights are described in section 5.1.

Data Processor

HP will notify HP Customers if they receive a Data Subject request relating to the Personal Data that HP is processing on behalf of its HP Customer. HP will cooperate with its HP Customers in responding to requests by Data Subjects to exercise their rights.

5. Submitting a Complaint and Enforcing the HP EU BCR

HP recognizes that where Personal Data has not been processed in accordance with its HP EU BCR, Data Subjects may also have the right to seek redress by filing a complaint with HP or filing a complaint or seeking redress from a Competent Supervisory Authority or a Competent Court. The following sets forth how a Data Subject can file a complaint or seek to enforce HP EU BCR.

5.1 HP's Complaint Handling Process

Data Controller

HP has implemented a complaint management process and applies consistent incident management procedures from identification through to resolution. Complaints to the HP EU BCR Entities, queries or the exercise of the Individual Rights described in section 4.5, relating to HP EU BCR can be submitted through the following mechanisms:

- Online - Complaints can be submitted via the [“HP Chief Privacy and Data Protection Officer” form](#).
- Postal Mail - Complaints can be sent to HP via mail service at the addresses listed in [HP Global Privacy Statement](#) or [Personal Data Rights Notice](#).
- Telephone - Complaints can be reported via telephone using the local number provided in the [Personal Data Rights Notice](#).

applicants or former HP Employees can complain to HP EU BCR Entities by using the mail service at the addresses listed in [HP Global Privacy Statement](#) or [Personal Data Rights Notice](#) or by submitting the request through the [“HP Chief Privacy and Data Protection Officer” form](#).

Upon receipt, the HP's Trust and Privacy Organization will review the submission and take action to honour requests, investigate complaints and/or respond to inquiries. HP will acknowledge receipt of a complaint within ten business days and will respond to all submissions (whether the complaint is rejected or accepted) without undue delay and in any event within one month of receipt (which may be extended to two months if the request(s) are complex or numerous). The HP's Trust and Privacy Organization will make sure that any corrective actions are taken to deal with the matters raised in the complaint.

**Data Processor**

Complaints to the HP EU BCR Entities or queries relating to HP EU BCR can be submitted through the following mechanism:

- Online – Complaints can be submitted via the [“HP Chief Privacy and Data Protection Officer” form](#).

A Data Subject whose personal data is being processed by HP as Data Processor shall select the option “Privacy/data protection question”, and then select “International Data Transfers”.

HP Customers can contact HP through the same channel for queries or complaints regarding HP EU BCR for Processors by selecting the option “Controller using HP as Processor”, and then selecting “Privacy/data protection question” or “Privacy/data protection complaint”.

Where HP is processing Personal Data on behalf of a HP Customer, HP strongly encourages Data Subjects to submit their request or complaint directly to the HP Customer, who will instruct HP on necessary actions. If HP receives a request or complaint directly from the Data Subject, it shall promptly notify its HP Customer and comply with any subsequent requests by the HP Customer in support of its efforts to respond to the request or complaint. If HP Customer is a Data Processor, HP will inform the HP Customer and, if directed, also inform the HP Customer.

If the HP Customer is no longer in existence, then HP will respond directly to the Data Subject.

5.1.1 HP’S DUTY TO RESPOND TO DATA PROTECTION RIGHTS REQUESTS

HP is aware of the consequences of any decision as part of a complaint, in particular:

- Consequences of delays for the reply to the complaint: If HP would not respond in the timeframe of one month and does not communicate an extension period together with the reasons of the delay, the Data Subject may submit a complaint to a Data Protection Authority or seek a judicial remedy.
- Consequences in case of rejection of the complaint: HP closes the case opened after the request and the individual may submit a complaint to a Data Protection Authority or seek a judicial remedy.
- Consequences in case the complaint is considered as justified: the Individual Rights related to the request will be granted. Examples are (i) individuals will no longer be informed about products and promotions, or (ii) the personal data concerned is updated, corrected, or deleted.

- Consequences if the data subject is not satisfied by the reply: The Data Subject may submit a complaint to a Data Protection Authority or seek a judicial remedy.

5.2 Complaint Escalation

Data Controller

If the Data Subject is not satisfied with HP's response, they can:

- 1) File a complaint with a Supervisory Authority (a full list of EEA Data Protection Authorities is available [here](#) and the Swiss data protection authority is available [here](#));
- 2) Seek a judicial remedy in a Competent Court of the Member State where HP has an establishment or where the data subject has their habitual residence (more information on Competent Courts: [EU Members](#), [Iceland](#), [Liechtenstein](#), [Norway](#), [Switzerland](#)).

It is important to note, however, that at any time, Data Subjects may seek to complain to the Competent Supervisory Authority or to redress at a Competent Court without first filing a complaint with HP or exhausting the HP Complaint Handling Process. HP is committed to working with the Competent Supervisory Authorities or Competent Court to resolve any complaints filed alleging non-compliance with HP EU BCR.

Data Processor

HP Customers can bring a claim in a Competent Court against the Lead EU BCR Entity for redress and, where appropriate, compensation for any breach of the HP EU BCR by the EU BCR Entities and any Non-EEA BCR Entity (including its sub processors).

5.3 Third-Party Enforcement Rights

HP recognizes that data protection laws contain remedies for Data Subjects that give them the right to lodge complaints, obtain redress and, where appropriate, seek compensation for breach of the HP EU BCR by the Lead EU BCR Entity and any non-EU BCR Entity. HP Customers and Data Subjects are entitled to full access of the sections of HP EU BCR as they apply to third-party beneficiary rights, namely the following:

- Part IV, Section 1 of the Intercompany Agreement on the Processing and Transfer Personal Data (where HP is a Data Controller)

In summary, Data Subjects are entitled to enforce their rights in various forms. Data Subjects have the right to file a complaint under the HP EU BCR, the right to compensation from the Lead BCR Entity for any damages suffered as a result of a breach of the HP EU BCR and the right to

lodge a complaint with the Competent Supervisory Authority or to seek redress at a Competent Court. These rights arise from HP's compliance with the data protection principles under the GDPR, HP's transparency and ease of access of its HP EU BCRs, the Data Subject's rights under the GDPR, HP's transparency where national legislation may prevent the HP Group from complying with the HP EU BCR and HP's cooperation with the Competent Supervisory Authorities.

- Sections 4 and 5 of the Intercompany Agreement on the Processing and Transfer of Personal Data within the HP Group (where HP is a Data Processor)

In summary, this entitles the Data Subject to enforce its rights in respect of HP's compliance with its duties to: respect the instructions from the HP Customer regarding the data processing including for data transfers to third countries; implement appropriate technical and organizational security measures; notify any personal data breach to the HP Customer; to respect the conditions when engaging a sub-processor either within or outside the HP group; cooperate with and assist the HP Customer in complying and demonstrating compliance with the law such as for answering requests from Data Subject in relation to their rights; easy access to the HP EU BCR, the Data Subject's rights to complain under the HP EU BCR, including the right to receive compensation from the Lead EU BCR Entity for any damages suffered and the Data Subject's right to lodge a complaint to the Competent Supervisory Authority or to seek redress at the Competent Court; HP's cooperation obligations with the Competent Supervisory Authority; and HP's commitment to be transparent where national legislation may prevent the HP Group from complying with the HP EU BCR. They also entitle the Data Subject to enforce the HP EU BCR as third-party beneficiaries where they are not able to bring a claim against the HP Customer (e.g. where a HP Customer has factually disappeared or ceased to exist in law or has become insolvent).

Requests for access can be submitted by contacting us through the ["HP Chief Privacy and Data Protection Officer" form](#).

HP recognizes that the Data Subject may be represented by a not-for-profit body, organization or association under the conditions set out in Article 80(1) of GDPR.

Data Controller

In situations where HP acts as a Data Controller, Data Subjects can enforce their rights as third-party beneficiaries in relation to a breach by either the HP BCR Entity acting as the Data Importer or the BCR HP Entity acting as the Data Exporter. In such cases, the HP EU BCR Entity that acted as the Data Exporter shall accept liability for such breach as if it had arisen from its own act or

omission unless the Lead EU BCR Entity can show that the Data Importer is not responsible for the event giving rise to the breach. If one of the Data Exporters disappears, ceases to exist in law or becomes insolvent, the Lead EU BCR Entity will take any necessary action to remedy the breach and compensate the Data Subject for any damages resulting from the breach unless that Data Exporter can show that the Data Importer is not responsible for the event giving rise to the breach.

Data Processor

If HP, when acting as a Data Processor, processes Personal Data in breach of its HP EU BCR, the HP Customer (if HP, when acting as a Data Processor, processes Personal Data in breach of its HP EU BCR, HP Customer or the Data Controller on whose behalf the HP Customer processes the Personal Data) has the right as a third-party beneficiary to enforce the HP EU BCR and lodge a complaint to the Competent Supervisory Authority or bring a claim for compensation for damages against HP with a Competent Court. Where the breach is caused by the HP EU BCR Entity acting as the Data Importer or a third-party sub-processor of an HP BCR Entity, HP Customers have the right to enforce the BCR against the Lead EU BCR Entity.

In addition, where the HP Customer ceases to exist, Data Subjects also have the right as third-party beneficiaries to the HP EU BCR to file complaints or to bring a claim for compensation for damages against HP's pre-designated EU Entity, which shall accept liability for such breach as if it had arisen from its own act or omission.

To request additional information regarding the rights of HP Customers or information regarding HP's pre-designated EU entity, against which complaints may be lodged, please submit your request to the ["HP Chief Privacy and Data Protection Officer" form](#).

In the event that the Data Subject is not able to bring a claim against the HP Customer, or the laws of the Data Subject's place of residence or establishment do not allow the Data Subject to bring such a claim, the Data Subject may exercise his or her rights to seek remedies or lodge a complaint in:

- the jurisdiction of the HP Entity acting as Data Exporter from which the data transfer originated; or
- the jurisdiction of the European headquarters of the HP Group; or
- the EU Member State in which the HP Group's Responsible EU Entity liable for paying compensation to EU Data Subjects is located, namely the Netherlands.

6. HP EU BCR Entities

A complete list of all territories and countries in which HP Entities bound by HP EU BCR operate can be found in Appendix 1. Changes or updates to this list will be posted [here](#).

7. Updates to HP EU BCR

HP EU BCR may be updated, amended or modified from time-to-time. Any such updates shall be notified to the HP BCR Entities, which shall have an opportunity to object to any such changes.

Data Controller

HP will ensure that significant amendments are communicated to Data Subjects via email, posting on an internal website or public website (available [here](#)) or other such method. HP will also provide notice of any non-substantial changes to the Commission Nationale de l'Informatique et des Libertés ("CNIL") on an annual basis (including to the list of HP EU BCR Entities). Where a modification would affect the level of the protection offered by the BCR, such changes shall be promptly communicated to the CNIL.

Data Processor

Where amendments will affect data processing conditions, HP will notify its HP Customers in a timely fashion such that the commercial customer has the possibility to object or to terminate the agreement covering the provision of our services before the amendment is made or the termination becomes effective.

HP will provide notice of non-substantial changes to the CNIL on an annual basis.

8. Conflicts of Law

Data Controller

Where local laws may prevent HP from complying with its obligations under the HP EU BCR or have a substantial impact on the guarantees provided by the HP EU BCR, HP will involve the Competent Supervisory Authority. Where HP considers that the matter would have a substantial adverse effect on the guarantees provided by the HP EU BCR, it will report the matter to the Competent Supervisory Authority as required to settle the case in collaboration with the appropriate government authorities. This includes any legally-binding requests for disclosure of the Personal Data of an EU Data Subject by a law enforcement or state security body.

If HP is prohibited by law or a law enforcement authority from disclosing such matters, HP will use its best efforts to obtain a right to waive such prohibition and be in a position to provide as much information as possible to the CNIL and any other Competent Supervisory Authority and if requested by the Competent Supervisory Authority, provide information to demonstrate what actions it has taken under this section (unless this would be prohibited by secrecy requirements).

If, despite having used its best efforts, HP is unable to lawfully notify the CNIL and any other Competent Supervisory Authority it shall, on an annual basis, publish general information on the requests received from law enforcement authorities.

HP shall ensure that any disclosures made to law enforcement authorities or state security bodies in response to a request shall be made in accordance with applicable data protection laws.

Data Processor

When HP is acting as a Data Processor, upon receipt of a legally binding request for disclosure of Personal Data by a law enforcement authority or a state security body, HP will notify the HP Customer unless prohibited from doing so, for example, as the result of a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation.

Where the request relates to Personal Data, and where HP is not prohibited from doing so, on a case-by-case basis, HP will assess whether to notify the Competent Supervisory Authority and provide details of the requestor, the Personal Data requested and the legal basis for the disclosure by HP.

Where HP is prohibited from disclosing the request, it shall use commercially reasonable efforts to obtain a right to waive such prohibition and be in a position to provide as much information as possible to its HP Customer and/or the Competent Supervisory Authority.

If, despite having used commercially reasonable efforts, HP is unable to lawfully provide such notifications, on an annual basis, HP will publish general information on the requests received by law enforcement authorities for Personal Data.

9. Updates to this HP EU BCR Public Version

We will adjust our EU BCR Public Version to reflect any changes made to the HP EU BCR. We will specify the date on which this document was last reviewed and the dates and reasons for any changes [here](#).

10. Contact Information

Questions relating to the HP EU BCR should be sent to the HP's Trust and Privacy Organization through the ["HP Chief Privacy and Data Protection Officer" form](#).

Appendix 1 – HP Entities Covered by the HP EU BCR

Country	Entity	Address
Argentina	HP Inc Argentina S.R.L.	3616 Vedia Street, 7th Floor, City of Buenos Aires, Argentina
Australia	HP PPS Australia Pty Ltd	Rhodes Corporate Park, Building F, Level 5, 1 Homebush Bay Drive, Rhodes, NSW 2138, Australia
	Tower Software Engineering Pty Ltd	Rhodes Corporate Park, Building F, Level 5, 1 Homebush Bay Drive, Rhodes, NSW 2138, Australia
Austria	HP Austria GmbH	Technologiestraße 5, Gebäude F, Wien, 1120, Austria
Belgium	HP Belgium BV	Hermeslaan 1, Building B, 1831 Diegem, Diegem, Belgium
Brazil	HP Brasil Indústria e Comércio de Equipamentos Eletrônicos Ltda	Alameda Xingu 350, 8th and 9th floors, Alphaville Industrial, Barueri, São Paulo, 06455-030, Brazil
Bulgaria	HP Inc. Bulgaria EOOD	Business Park Sofia, build 10, Sofia 1766, Bulgaria
Canada	HP Canada Co. HP Canada Cie	1300-1969 Upper Water Street, Purdy's Wharf Tower II, Halifax, NS, B3J 3R7, Canada
	HP Canada Development Co.	600-1741 Lower Water Street, Halifax, NS, B3J 0J2, Canada
	HP Canada Licensing L.P.	5150 Spectrum Way, 6 th Floor, Mississauga, ON, L4W 5G2, Canada
Chile	HP Inc Chile Comercial Limitada	Av. Mariano Sánchez Fontecilla, 310, Piso 13, Las Condes, Santiago, CP 7550296, Chile
China	HP (Chongqing) Co., Ltd	22, Xi Yuan Yi Road, Xi Yong Village, Sha Ping Ba District, Chongqing, China
	HP (Chongqing) Manufacturing, Export, Procurement and Settlement Co., Ltd	1st floor & 3rd floor & 4th floor R&D Building 1, HP Chongqing Software Park (Xiyong Micro-electronics Industrial Park) No. 22, Xiyuan 1st Road, Xiyong Town, Sha Ping Ba District, Chongqing
	HP Information Technology R&D (Shanghai) Co., Ltd	Room 203-C, No. 26 Jia Feng Road, Pilot Free Trade Zone, Shanghai, China
	China HP Co., Ltd.	No.8 Guang Shun Avenue South, Bldg. 1, 5th Floor, ChaoYang District, Beijing, P.C. 100102, China
	HP Trading (Shanghai) Co. Ltd.	Room 203-A, No. 26 Jia Feng Road, Pilot Free Trade Zone, Shanghai, China
	HP Supply Chain Management (Shandong) Co., Ltd	Industrial Technology Research Institute, No 369-8 Shuangdao Road ,11th floor, Shandong Province, Weihai City, 264209, Chin
	HP Trading Kunshan Co., Ltd.	Room 107, No.1, The Third Avenue, Kunshan Development Zone, China
Colombia	HP Colombia SAS	Carrera 11B, No. 99-25, Piso 14, Bogotá, 110221, Colombia
Costa Rica	HP Inc Costa Rica Limitada	Heredia-Heredia San Francisco de Heredia, seiscientos metros al norte de Plaza Real Cariari, calle Rusia, exactamente en Zona Franca América, Edificio C-Nueve, Costa Rica

	HP PPS Costa Rica Limitada	Centro Comercial City Place, Edificio B, piso tres Local cincuenta y tres, San Jose, Costa Rica
Croatia	HP Computing and Printing d.o.o. (Zagreb)	Radnička cesta 41/V, Zagreb, 10000, Croatia
Czech Republic	HP Inc Czech Republic s.r.o.	Za Brumlovkou 1559/5, Michle, 140 00 Praha 4, Czech Republic
Denmark	HP Inc Danmark ApS	8 Engholm Parkvej, 3450 Allerød, Denmark
Egypt	HP Egypt LLC	Offices No. 446 & 447, Building 47, North (90th) Teseen Street, First Sector, Fifth Settlement, New Cairo, Cairo, Egypt
Finland	HP Finland Oy	Keilaranta 16, Espoo, 02150, Finland
France	HP France SAS	14, Rue de la Verrerie, Meudon Campus Bat 1, Meudon, 92190, France
Germany	HP Deutschland GmbH	140, Herrenberg Strabe, Boblingen, 71034
	HP Health Solutions Germany GmbH	Walter-Gropius-Strasse 7, Munich, 80807, Germany
Greece	HP Συστήματα Εκτύπωσης και Προσωπικών Υπολογιστών Ελλάς ΕΠΕ (HP Printing and Personal Systems Hellas EPE)	1-3, Tzavella Street, 2nd Floor, Chalandri, Athens, 15232, Greece
Hong Kong	HP Inc AP Hong Kong Limited	Suites 2501 to 2506 and 2515 to 2516 and Part of Suite 2507 on 25th Floor, No. 1111 King's Road, Taikoo Shing, Hong Kong
	HP Inc Hong Kong Limited	Suites 2501 to 2506 and 2515 to 2516 and Part of Suite 2507 on 25th Floor, No. 1111 King's Road, Taikoo Shing, Hong Kong
Hungary	HP Inc Magyarország Kft.	Nepfurdo utca 22. B. ep.13 em, Budapest, 1138, Hungary
India	HP India Sales Private Limited	No. 24, Kothari Arena, Hosur Main Road, Adugodi, Bangalore, 560030, India
	HP Computing and Printing Systems India Private Limited	No. 24, Kothari Arena, Hosur Main Road, Adugodi, Bangalore, 560030, India
	HP PPS India Operations Private Limited	No. 24, Kothari Arena, Hosur Main Road, Adugodi, Bangalore, 560030, India

Appendix 2 – Description of Data Transfers

This table sets out the types of Data Subjects we may process personal data about, the categories of personal data we may process about them, and the purposes for which we process personal data. This table is intended to be a generic summary.

***Please note** that countries listed under Recipients in the following table are those where HP has a team explicitly dedicated to the relevant Processing Activity. This need not mean that someone located in any of the countries listed under Appendix 1 may not access said personal data. Nevertheless, HP always ensures that all personal data transferred to a third country has all the appropriate safeguards to guarantee an essentially equivalent level of protection to that of the EEA.

Processing Activity	Data Subjects	Categories of Personal Data	Recipients
Marketing Activities	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners	Contact Data, Telemetry Data	United Kingdom, United States*
Sales Activities	Enterprise customers (B2B), Business partners, Current HP Employees	Contact Data, Account & Payment Data, Product Ownership Data, Preference Data	United States, India, Spain, Switzerland, United Kingdom, Mexico, Germany, Singapore, Italy, France, Finland, Brazil, Romania*
Customer Support	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners, Current HP Employees	Contact Data, Product Ownership Data, Preferences Data, Customer Interaction Data, Credentials Data,	United States, Australia, India, Philippines, China, El Salvador, Tunisia, Canada, Costa Rica, Israel, Serbia, Brazil, Turkey, Thailand, Kosovo, Japan, Mexico, United Kingdom, France, Germany*
Order and Transaction Management	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners	Contact Data, Product Ownership Data, Telemetry Data	United States*

Products and services	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners, Website visitors, Research Subjects	Contact Data, Telemetry Data, Preferences Data, Product Ownership Data, Account and Payment Data, Location Data, Other Personal Identifiers, Biometric Data, HP People Data	Germany, United States, Brazil, China, Costa Rica, India, Mexico, Philippines, Singapore, Taiwan, Tunisia, United Kingdom, United States, Czech Republic, Canada, Japan, Norway, Sweden, Netherlands, Jamaica, Poland, Hong Kong, Indonesia, South Africa, Bahrain, UAE, New Zealand, Australia*
Centralized Data Management & Analytics	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners, Current HP Employees	Contact Data, Location Data, Credentials Data, Preferences Data, Product Ownership Data, Telemetry Data, HP People Data	Australia, Brazil, Costa Rica, France, Germany, Hong Kong, India, Israel, Korea, Mexico, Netherlands, Philippines, Romania, Singapore, South Africa, Spain, Switzerland, Taiwan, United States, United Kingdom*
HR Management	Current HP Employees, Prospective Employees and Job Candidates, Contractors/Contingent Workers, Former HP Employees	Contact Data, HP People Data, Telemetry Data, Special Categories of Data, Credentials Data	United States, Costa Rica, Germany, India, Malaysia, Mexico, Poland, Singapore, South Korea, Spain, Taiwan, Canada, China, Argentina, Israel, Japan, New Zealand, Switzerland, United Kingdom*
Employee Compensation & Benefits	Current HP Employees, Former HP Employees, Dependents of HP Employees	Contact Information, Special Categories of Data, HP People Data	Costa Rica, Germany, India, Malaysia, Mexico, Poland, Singapore, South Korea, Spain, Taiwan, Canada, United States, China, United Kingdom, Finland, Belgium, Czech Republic, Italy, Hungary, Luxembourg, Austria, France, Bulgaria, Ireland, Netherlands, Norway, Switzerland, Brazil, Belgium, Japan, Romania, Australia, South Africa, Hong Kong, Israel, Philippines*

Employee Performance Management & Career Development	Current HP Employees	Contact Data, HP People Data	United States, Singapore, Bulgaria, India, Mexico*
Supply Chain Management	Consumer customers (B2C), Enterprise customers (B2B), Customers and General Public, Business Partners, Suppliers, Research Subjects	Contact Data, Product Ownership Data, Preferences Data	China, Taiwan, United States, Mexico, France, Canada, South Korea, Germany, Malaysia, Netherlands, Singapore, Spain, Thailand, Czech Republic, Poland, Tunisia, Kosovo, Serbia, Portugal, Turkey, Greece, India, United Kingdom, Hungary, Finland, Denmark, Ireland, Croatia, Sweden, Saudi Arabia, Norway, Nigeria*
Business Operations	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners, Current HP Employees, Dependents of HP Employees, Former HP Employees, Prospective Employees and Job Candidates, Contractors / Contingent Workers, Suppliers, Research Subjects, Medical device users, Website visitors,	Contact Data, Special Categories of Data, HP People Data, Telemetry Data	United States, Costa Rica, Mexico, Israel, Spain, India, Taiwan, Japan, South Korea, Singapore, China, Australia, Brazil, Malaysia, United Kingdom, Bulgaria, Canada, France, Germany, Hong Kong, Netherlands, Philippines, Poland, Romania, South Africa*
Security and Site Operations	Current HP Employees, Contractors/Contingent Workers, Site Visitors, Suppliers, Enterprise Customers (B2B)	Contact Data, HP People Data, Location Data, CCTV Footage Data	United States, Singapore, Finland, Israel*

Procurement & Supplier Management	Suppliers, Current HP employees, Former HP employees, Dependents of HP Employees, Contractors / Contingent Workers	Contact Data, HP People Data	United States, Algeria, Australia, New Zealand, Argentina, Austria, Belgium, Brazil, Bulgaria, Canada, Chile, China, Colombia, Costa Rica, Croatia, Czech Republic, Denmark, Ecuador, Egypt, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Italy, Japan, Korea (South), Luxembourg, Malaysia, Mexico, Morocco, Netherlands, Nigeria, Norway, Panama, Peru, Philippines, Poland, Portugal, Puerto Rico, Romania, Saudi Arabia, Serbia, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, Taiwan, Thailand, Tunisia, Turkey, UAE, United Kingdom, Venezuela, Vietnam*
Financial & Transaction Management	Enterprise Customers (B2B), Business Partners, Business Partners, Suppliers, Current HP Employees, Site Visitors	Contact Data, HP People Data	United States, Mexico, Australia, Canada, Brazil, Bahrain, UAE, South Africa, China, India, Hong Kong, Singapore, Indonesia*
External communications	Consumer Customers (B2C), Enterprise Customers (B2B), Customers and General Public, Business Partners, Current HP Employees, Suppliers, Site visitors	Contact Data	United States*

Surveys	Consumer Customers (B2C) Enterprise Customers (B2B) Customers and General Public Website / Social Media Users	Contact data Interaction data Preferences data Location data	United States, Australia, India, Philippines, China, El Salvador, Tunisia, Canada, Costa Rica, Israel, Serbia, Brazil, Turkey, Thailand, Kosovo, Japan, Mexico, United Kingdom, France, Germany*

Appendix 3 – Glossary

Adequate Third Countries – mean any third country or territory, or international organization, or a particular sector in a country or territory which the European Commission has determined that offers an adequate level of protection of Personal Data in accordance with Article 45 of the GDPR. The countries or territories considered adequate are: Andorra, Argentina, Canada (commercial organizations), Isle of Man, Japan, Jersey, Faeroe Islands, Guernsey, New Zealand, State of Israel, Switzerland, Republic of Korea, Uruguay, United Kingdom, US companies adhered to the Data Privacy Framework (DPF) Framework Program, and the European Patent Organization.

Binding Corporate Rules for Controllers – mean appropriate safeguards for making Transfers from controllers covered by the geographical scope of the GDPR to other controllers or to processors within the same Group established in third countries that have not been recognised as providing an adequate level of protection pursuant to Article 46 GDPR.

Binding Corporate Rules for Processors – mean appropriate safeguards for making Transfers between members of the Group covered by the geographical scope of the GDPR, acting as processors on behalf of Third Party Exporters that are not members of the Group, and which are then transferred and processed by Group members as sub-processors in third countries that have not been recognised as providing an adequate level of protection pursuant to Article 46 GDPR.

CNIL – means the Commission Nationale de l'Informatique et des Libertés, which is the Data Protection Authority competent for the supervision of the HP EU BCR.

Competent Supervisory Authority and/or Competent Court – mean the Data Protection Authority or Court competent for the data exporter.

Data Controller - means an entity (whether a natural or legal person, public authority, agency or other body) which alone, jointly or in common with others determines the purposes and means in which any item of Personal Data is processed.

Data Exporter - means the HP BCR Entity established in the EU or EEA who exports Personal Data to a Data Importer located in a third country (i.e., outside of the EEA).

Data Importer - means the HP BCR Entity established in a third country (i.e., outside of the EEA) who agrees to receive Personal Data from another HP BCR Entity located in the EU or EEA.

Data Processor - means an entity (whether a natural or legal person, public authority, agency or any other body) which processes Personal Data on behalf and upon instructions of the Data Controller.

Data Protection Authority - means the EEA supervisory authority responsible for enforcing data protection legislation.

Data Subject - means an identified or identifiable individual natural person to whom Personal Data relates.

EEA - means the zone of economic cooperation known as the European Economic Area and those countries which are participants in such zone, collectively.

Europe - means the EU Member States, EEA countries, Switzerland and Monaco.

European Union (EU) - means the political grouping known as the European Union and those countries which are members of such political union, collectively.

GDPR - means the European Union Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC (General Data Protection Regulation) (as amended and replaced from time to time).

HP Customer - means any entity whose Personal Data is processed by any HP BCR Entities bound by the HP EU BCR for Processor.

HP Employees - means any HP BCR Entities' staff (including individual contractors and agency workers) who have access to the Personal Data.

HP EU BCR Entities - mean any HP entity that are bound by the HP EU BCR and have duly executed the Intra-group Agreement. HP EU BCR Entities are listed in Appendix 1, as that list may be updated in accordance with Section 6. Referred to as "HP Members" or "HP Entities" or "HP Companies" throughout the parts of the EU HP BCR, the Intra-group Agreement, and this Public Summary.

HP EU BCR Public Version - means this HP EU BCR Public Version, which may be updated from time to time in accordance with Section 7.

HP Global Master Privacy Policy - sets out the duties of HP and HP Employees when processing personal data about Data Subjects.

Individual Rights - means specific rights granted by Data Protection Laws to Data Subjects in relation to their data, which includes the right to be informed, the right of access, the right to rectification, the right to erasure (right to be forgotten), the right to restrict processing, the right to data portability, the right to object and the right not to be subject to a decision based solely on automated processing.

Lead EU BCR Entity - BCR Entity in the EEA with delegated data protection responsibility.

Non-EEA BCR Entity - means any HP BCR Entity not established in the EEA.

Personal Data - means any information relating to an identified or identifiable natural person; an identifiable person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, online identifier or to one or more factors specific to his physical, physiological, genetic, mental, economic, cultural or social identity of that natural person, including Special Category Data and any other data deemed to be personal data under applicable data protection law.

Personal Data Breach - means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, Personal Data transmitted, stored or otherwise processed.

Privacy Statement - means HP Global Privacy Statement.

Processing - means any operation or set of operations which is performed on Personal Information or on sets of Personal Information, whether or not by automated means, such as collection, recording, organization, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

Special Category Data - means Personal Data revealing racial or ethnic origins; political opinions or affiliations; religious or philosophical beliefs; trade union membership; genetic data; biometric data for the purposes of uniquely identifying a natural person, health or sex life; and criminal convictions, offences, or proceedings.

Sub-Processor - means the entity engaged by the Data Processor or any further sub-contractor to process Personal Information on behalf of and under the instructions of the Data Controller.

Transfer - means a transfer which is covered by Chapter V of the GDPR.

Trust and Privacy Organization - means the Group Privacy office at HP.
