Fact sheet

HP Manufacturing Time Sheet Collection Accelerator

Overview

The HP Manufacturing Time Sheet Collection Accelerator is a complete document imaging solution for time sheet capture and consolidation. The solution is designed to quickly and effectively merge the data needed for invoicing workers activity through the efficient capture of their weekly time sheets. It replaces the previous labor-intensive and inaccurate process, which provided uncontrolled results and additional costs, with a more reliable, flexible automated solution. Automation of core HR application processes can improve efficiency and potentially speed up revenue streams, helping to reduce errors and operation costs. The solution collects time cards/sheets for remotely distributed workers, a weekly activity that is the basis for collection, payment and invoicing processing at the end of each month. This capability allows data to be inputted into the system faster and more accurately to better invoice and monitor each employee.

Key features and benefits

- Delivers powerful capabilities to manufacturing companies; consolidates copying, scanning and printing functions in a secure networked environment
- Helps reduce potential lost revenue by increasing labor time reporting accuracy
- Significantly reduces errors and quality issues that may occur manually, avoiding rework
- Integrates workflow at the customizable front panel of the device for easy interaction and efficient processing with dedicated workflow solution integration
- Helps lower cost of operations and automates the business process bringing higher efficiency
- Powerful optical character recognition (OCR)/optical mark recognition (OMR)/ intelligent character recognition (ICR) software for data capture
- Powered by HP multifunction printers (MFPs), the sending capabilities route time sheets from any distributed working site
- Available on HP M4345, HP M3035, HP M5035, HPM9050, HP LJ4345, HP DS9200C, HP DS9250C, HP LJ9040, HP LJ9050, HP LJ9500, HP CLJ4730, HP CM3530, HP CM4730, HP CM6040, HP CM8050 and HP CM8060

Availability

HP Manufacturing Time Sheet Collection Accelerator is expected to be available worldwide in September 2009. Contact an HP sales representative for additional information.
