

## Take control of your print environment. Simple, effective tools will help you slash print costs and keep print data secure, while increasing user convenience and productivity.

Combine security with productivity. HP Access Control Express (HP AC Express) reduces the risks of unclaimed print jobs, sensitive documents left unattended, and frustrated users. Sophisticated job tracking helps you allocate costs and optimize device deployment. This bundle of solutions is cost-effective and tailored to the specific needs of your imaging and printing environment.

### Solution at a glance

Reduce waste and promote a more secure print environment. HP Access Control Express combines cost-control and security features with the simple operation that workers demand—users can conveniently release print jobs using their mobile device. A variety of HP single-function printers and MFPs are supported, as well as select devices from other manufacturers. Plus, HP AC Express is scalable, allowing your company to customize a plan that fits your unique needs.

#### Job Accounting—Audit and track imaging and printing use

Track detailed usage information for printers and MFPs across your organization. Use that information to allocate print costs to departments or clients, inspire users to print more responsibly, and provide IT with the necessary data to optimize fleet deployment and forecast device replacement. The solution's quota feature helps control costs by allowing administrators to set print page limits for user groups.

#### Secure Print Authentication—Powerful yet convenient authentication

Protect your company and eliminate unauthorized printing with authentication features that integrate with your existing network credentials (such as LDAP and Active Directory). Because users must authenticate prior to printing at the device, you can help ensure that documents remain secure. HP AC Mobile Release increases convenience by allowing users to easily authenticate and release print jobs, using their smartphone. Users print from their PC, select the HP AC Mobile Release application on their smartphone, and scan the barcode at any networked printer.

#### Secure Pull Printing—Empower mobile users and increase efficiencies

Allow users to print once to the server and “pull” jobs to any pull print-enabled HP LaserJet MFP. Pull printing virtually eliminates unclaimed documents, increases the efficiency of mobile workers, and reduces IT administrative burdens. It also enhances security by encrypting print jobs and requiring authentication before releasing jobs. Users can also preview and reorder the list of jobs in their print queue.

---

### What if you could...

**Enhance** the security of networked printers by easily authenticating devices and users?

**Increase** returns on printing investments by tracking use per device, user, and departments?

**Make it easy** for workers to print jobs using their mobile devices?

**Help** employees print more efficiently without sacrificing speed, convenience, or the quality of output?

## Why HP?

HP is a global leader in imaging and printing solutions, offering technical expertise along with reliable products and powerful solution sets.

**Reduce costs and improve your imaging and printing infrastructure.** Change the way you do business by changing the way you think about printing. Trim overall printing costs by investing in time- and money-saving solutions.

**Meet your business IT goals.** Extend the value of your imaging and printing hardware using solutions customized to meet specific needs. Trust HP and partner technology to handle even the most complex security, workflow, and document management issues.

**Choose from a wide variety of premier solutions.** Solutions are designed to work seamlessly with management tools.

## Get started today

When choosing HP solutions, rely on HP Document Solutions Specialists—your trusted advisors. They have been trained to help you assess your business needs, install the solutions that can enhance your organization’s effectiveness, and provide ongoing support.

Contact your local HP Document Solutions Specialist for more information about HP Access Control Printing Solutions and other imaging and printing applications that will help you keep your business running smoothly.

## Powerful workflow solutions

HP Access Control Express products help with:

- Contact management
- Employee records
- Medical claims management
- Transportation and logistics document processing
- And much more!

### Optimize infrastructure

HP can help you achieve a balance between your total cost of printing and your needs for user convenience and productivity.

### Manage environment

Working together, HP can help you maintain your optimized infrastructure while improving business efficiency and tightening security.

### Improve workflow

By streamlining your document-intensive processes, HP can help you deliver a more efficient environment for capturing, managing, and sharing information.
