Executive Biography

Ramon Pastor

Vice-president & General Manager
HP 3D Multi Jet Fusion Business
HP Inc.

Ramon Pastor is the Vice-President and General Manager of HP's 3D Multi Jet Fusion Business. This position includes worldwide responsibility for the Research and Development, Marketing and Operations of HP's 3D Printing Multi Jet Fusion line of solutions. This business has teams in Barcelona, Spain and Vancouver, US. Ramon is also the HP Barcelona Site Manager.

Ramon joined HP in 1992. Since then he has held different positions in Operations, R&D, Marketing and Business Management

Prior to his current position, Ramon was VP & GM of the Large Format Design Business, managing the introduction of the HP PageWide XL printers' series among other important products and solutions. Previously, he was the worldwide R&D Director for the Large Format Printing business. Ramon was responsible for the development of the first multifunction large format printers connected to the web, which represented a revolution for the technical market. He was also responsible for the complete renewal of the Printing platforms in recent years.

Before this position, Ramon was the Strategic Marketing Manager responsible for this business.

Ramon holds a Master in Engineering from Universitat Politècnica de Catalunya, a Business Degree by IESE in Barcelona and a Bachelor in Arts, as well as formal training in Product Development and Strategy by INSEAD and MIT.
